Fatal two vehicle crash on County Road B

On Thursday, September 19, 2019 at 6:36pm the Barron County Sheriff's Department received a call of a two vehicle crash on County Road B at 18th Street north of Rice Lake.

Deputies from the Barron County Sheriff's Department along with the Cumberland Ambulance, Bear Lake and Rice Lake Fire Departments and Life Link Helicopter were all dispatched to the scene.

Initial investigation shows a truck driven by Thomas Lamm, 48, of Boyceville was travelling south on 18th Street and failed to stop at

the stop sign at 18th Street and Highway B and collided with a truck travelling west on Highway B driven by Corey Carlson, 47 of Rice Lake.

Carlson was extricated from the truck and flown to Mayo Hospital in Eau Claire with serious injuries. Lamm was pronounced deceased at the scene.

This crash remains under investigation by the Barron County Sheriff's Department and the Wisconsin State Patrol.

Hwy B was closed, with the assistance of the Barron County Highway Department, for about three hours.

Single car crash claims life of Rice Lake man in Rusk County

On Thursday, September 19, 2019, at 2:56 AM the Rusk County Sheriff's office received a 911 call from a passer by advising of a one vehicle crash with ejection and personal injury on CTH O at the Barron/Rusk County Line in the Rusk County township of Wilkinson.

When Deputies arrived, they located a 1994 GMC pick up truck in the north ditch of CTH O, that had rolled several times. Deputies then located the lone occupant and driver of the vehicle deceased outside of

the truck.

Evidence at the scene shows the GMC was Eastbound on CTH O, failed to negotiate a 90 degree corner, entered the North ditch, rolled several times and ejected the driver.

The deceased driver has been identified as Nicholas Wisti, 27 years old from Rice Lake.

The crash remains under investigation by the Rusk County Sheriff's Office and the Rusk County Medical Examiner's Office. The Weyerhaeuser Fire Dept assisted in this incident.

Turtle Lake Police Chief: "Very dangerous illegal drugs are on our streets"

On September 20, 2019, the Turtle Lake Police Department, Turtle Lake First Responders, Cumberland Ambulance, Barron Gold Cross Ambulance, Turtle Lake Fire Department, Life Link Helicopter and the Barron County Sheriff Department, were paged to the St. Croix Casino Hotel for an unconscious female in the parking lot.

On arrival, a 22 year old female was located in the back seat of a vehicle unconscious and not responding to anything. A few minutes later, a 22 year old male subject was located in the hotel room in the same condition as the female. Both subjects had been in the same room earlier the day.

The female was transported to the Cumberland Hospital and the male subject was flown to Regions Hospital in Minnesota.

This incident still remains under investigation at this time by the Turtle Lake Police Dept, but appears to be drug overdoses of an illegal drug call GHB (Gamma Hydroxybutyrate) similar to Ecstasy, a very dangerous drug.

A 23 year old male was arrested at the scene for a probation hold.

TL Police Chief Alan Gabe stated: "This is the second incident in less than a week of people overdosing on illegal drugs in the Village of Turtle Lake. Illegal drugs will kill."

Gov. Evers allocates new Assistant District Attorney position for Barron County

On behalf of the Barron County District Attorney's Office, I want to thank Governor Tony Evers, Senator Janet Bewley, Representative Romaine Quinn, the Wisconsin Department of Administration, the Barron County Board of Supervisors and Barron County Administrator Jeffrey French for their recognition of the need for an additional prosecutor in Barron County. With the allocation of an additional prosecutor, the Barron County District Attorney's Office will have four prosecutors.

In Barron County, the District Attorney's Office prosecutes cases referred by

eleven separate law enforcement agencies, appears at court hearings in three separate branches before three different judges, and has an average caseload per prosecutor of over 400 open cases at any given time. Echoing Governor Evers' announcement, the allocation of an additional prosecutor to serve the Citizens of Barron County will "improve victims services, enhance diversion and treatment options for those struggling with substance use disorders, and address backlogs that are standing in the way of justice." The process of hiring an additional prosecutor will begin immediately.

Apex Predator

This aggressive Musky has been spotted in Sand Lake numerous times this summer. Apparently, either very hungry or protective of his "space," residents say that everytime he has been spotted he always had a big fish in his mouth. You might want to use caution when swimming!

The Muskies of Sand Lake by Mark R. Fuller

Visitors have been enjoying the fishing in our area lakes since Cumberland was first settled. Those around Cumberland will tell you that to catch our State fish, the muskie, Sand Lake is where you should head.

Named our State fish in 1955, more world records have been landed in Wisconsin than anywhere else. The current state and world record is a 69 pounds and 11 ounce fish taken from the Chippewa Flowage.

Muskie were planted in Sand Lake somewhere around 1938. The June 13, 1940 Advocate, had a story in which Game Warden James Scolman had announced 15,000 6" long muskie had been placed in

Sand Lake that spring. He said it was, "The third year muskie fry had been put into the lake."

From here, the legend of the muskie in Sand Lake has grown.

In 1939, a Maple Plain farmer, Carl Olson told a fish story of his encounter with the giant fish that appeared in the Superior Telegram.

Alone in a boat, he hooked onto a fish on a spoon hook. In the middle of the lake, with neither a net or gaff hook, he tussled with the large muskie, which he estimated at 30 pounds. Hoping to get the fish closer to shore, the story said he took off his shoes and trousers, jumping into the lake in an attempt to land his fish.

Unfortunately, the fish would escape without ever being seen by others.

In 1940 a muskie was landed, by Reverend Edward Kneppert, a visitor from Rockford, Illinois, after a fight of 20 minutes. The paper called it "The first muskie ever caught on Sand Lake." He was spending a week at Luckman's Cabins on the lake.

Perhaps one of the most successful muskie fishermen in the area was Gerhard Heinecke of Cumberland, who caught the muskie fever in 1957. A worker at 3M, it was said he caught so many of the fish, those there called him, "Mr. Muskie."

He claimed he'd had fish on over the 69 inch State

record, "but never landed one." Unwilling to share his favorite bait, he recommended, "100-pound test line and steel leaders when going after the fish."

He said his favorite fish story was when a large muskie, "Pulled my boat backwards and appreciable distance." He fished numerous lakes for the fish, but called Sand Lake, "his favorite." He did catch several fish around 50 inches.

There have been numerous big muskie caught, including a 50 1/2 inch, 31 pound lunker by Otto Dischinger in September of 1951.

One wonders, however, could that giant fish Carl Olson couldn't land in 1939 still be out there?

Gov. Evers to order Special Election in 7th Congressional District

Gov. Tony Evers has announced that he will order a special election to fill the 7th Congressional District vacancy created by the resignation of U.S. Rep. Sean Duffy (R-Wis). The election will occur on January 27, 2020. A primary, if required, will occur on December 30, 2019.

The governor has received notification from

Mr. Duffy stating Mr. Duffy will resign the office of U.S. Representative, effective Monday, September 23, 2019, at 6:00 p.m.

State law dictates when the governor can order a special election. Once a congressional seat becomes vacant, the governor can order a special election. Gov. Evers will issue an order for the special

election immediately following the effective time of Mr. Duffy's resignation.

"Our rural communities have been directly affected by unproductive trade wars, political attacks on health-care and public education, and economic uncertainty because of the volatility we're seeing in Washington, D.C.," said Gov. Evers.

"The people of Wisconsin's 7th Congressional District deserve to have a voice in Congress, which is why I am calling for a special election to occur quickly to ensure the people of the 7th Congressional District have representation as soon as possible. I thank Rep. Duffy for his service and wish him and his family all the best."

Training for Water Emergencies

The Barron County Sheriff's Department Emergency Services hosted a "How to Operate (H2O) in Water Emergencies" training on September 17, 2019 on Beaver Dam Lake. The training was open to all area police, firefighters & EMTs, and included classroom time, as well as the outdoor training.

A daughter, Karlee Kay, weighing 7 lbs 1 oz., to Nikki and Kyle Tempesta of Luck on July 27, 2019.

A son, Atrous Paul, weighing 8 lbs. 2 oz., to Brook and Louie Van Erp of Cumberland on July 30, 2019.

A son, Griffin Brady, weighing 5 lbs. 12 oz., to Courtney J. and Jacob R. Most of Cumberland on July 30, 2019.

Cumberland Area Ministerial Association to Hold a Prayer Walk

On Sunday, September 29, at 3:30, the Cumberland Area Ministerial Association will hold a 'Prayer Walk' for the Cumberland Schools. We will gather and pray around each of the schools flag poles, praying for the school administrators, the staff and the students in each school. The walk will begin at the high school flag pole, we will walk to the district office then around to the middle

school flag pole. The walk will continue up the main street and to the elementary school, and then down Water St./4th Ave. around the end of Library Lake and return to the high school. As we walk down Main St. we can pray for the business leaders, and as we travel in the neighborhoods we will pray for the community.

The distance is about two miles and if you would like to participate in the prayers,

Rescheduled Donut DashRun/Walk

The rescheduled 5th annual Barron County Cops & Robbers Donut Dash is going to start at 8:30 am on September 28th at the Barron County Fairgrounds.

For the 4th year in a row we will be honoring Law Enforcement Officers that died in the line of duty. This year we are going to honor the fallen officers in a very special way. All registered participants can run/walk in honor of a fallen officer by affixing a sticker to their self that contains the name and photo of a fallen officer. All of the fallen officer's in the US since our last release on July 21st, 2018 will be represented. Please join us in honoring these brave heroes.

The run/walk, previously scheduled for July 20th, had to be rescheduled due to a tornado that went through Barron County the evening before which created an issue with staffing the run/walk.

The run/walk will start just inside the entrance to the fairgrounds. The Cops & Robbers Donut Dash 5K is put on by the Sheriff's

office and the proceeds go to the Barron County Law Enforcement Foundation which then uses those funds for the Shop With A Cop program. The 2018 holiday season saw our largest number of children provided with gift cards to shop with deputies and officers from the Barron County Sheriff's Department, State Patrol, Wisconsin DNR and the Barron, Chetek, Cumberland, Four Corners, Rice Lake, and Turtle Lake Police Departments. The children used the gift cards to shop for their families for the holiday. After shopping the kids and officers all have dinner together. This event is always a special day for everyone involved.

Details about the run.... The run takes place at the Barron County Fairgrounds at 8:30am on September 28th. Entrants that pre-registered received a bag back in July that had a FREE pass to the fair, t-shirt and bib. If you are registered from back in July and did not get your bag, it will be at the fairgrounds on the morning of the event. New

registrants will receive their items day of the run/walk. The extra t-shirts for those that register day of the run/walk are 1st come 1st serve. Also...there will be donuts. LOTS of donuts.

Not a runner? That's ok!!! Participates are welcome to walk the route. This event is for fun and a good cause. The past few years we even had some participants dress in costumes! "Prison" themed seems to be popular. Don't forget to bring your strollers - the little ones will have fun too and kids under 7 are free. Due to the potential for hot weather, bringing dogs is not encouraged.

You can register the morning of the run/walk at the fairgrounds if you are interested participating but online registration is now closed.

If you are interested in keeping up with what is going on with the race, go to the Barron County Sheriff's Department's Facebook page or look for the Cops & Robbers Donut Dash 5K event on Facebook. Email barrondonutdash@gmail.com with any questions.

Red Barn Theatre Clean-up

The clean up session at the Red Barn Theatre will be Saturday, September 28 from 9 :00 a.m. until early

afternoon. This includes Cleaning the stage and dressing room areas, bathrooms, prop room, etc.

but are unable to walk you are welcome to meet us at the flag poles. Following the walk all are invited to the Cumberland First UMC for 'Pastor Chili', each of the pastors who participate will provide a crockpot of their favorite chili recipe. The walk will begin at 3:30 and we hope to meet back at the UMC at 5:30. Join us as we lift our schools and community in prayer.

Cumberland Fire Department Safety Tip of the Month

Your Tree Stand Safety Guide

Without a doubt the number one most important part of hunting is safety. Coming back home to the family is your responsibility, enough to the point where you do not leave the ground without wearing hunting safety harnesses. When it comes to tree stand safety, there is no room for error, if there is, it is life threatening.

Just as we learn firearms safety in an online hunting safety course, there are tips and steps to tree stand safety. Each of these tree stand safety tips should be treated as how important they actually are...life or death.

• Inspect Your Tree Stand and Your Safety Harness: When deer season arrives, it's a constant grind, each and every day that is available to hunt, you will be in the stand. In the long season and remedial task of climbing in a tree stand it can be easy to miss something. Inspecting your tree stand and your safety harness for any tears, rips, bad rust or missing nuts before you climb is a must to staying safe during the entire season.

• Notify Someone Else: Another key element to remember from these tree stand safety tips, is to always, each and every time you go out hunting, let someone else know where

you are. Leave a note, or verbally tell someone where you are, and how long you will be hunting for. While it's easy to think that you have a cell phone you can't rely on it. For one you might not have service, but two, you might lose it during the fall.

• Never Hurry When Hunting From a Tree Stand: Again, once deer season gets here the rush and anxiety to get up in a tree can and will cause a panic and hurry mindset. Remember to stay calm, relaxed and think clearly. Climbing a tree stand is dangerous, you need to be sure to follow the above steps, but also be sure you have clipped in and are climbing the tree stand correctly.

Deer hunters everywhere, this fall, and every fall to come will only briefly think about tree stand safety. The thought that "I will never fall" is a poor attitude to climb up a stand with. It your responsibility to not only wear hunting safety harnesses but use them properly and be clipped in and safe during the entire hunt. You have a responsibility to practice tree stand safety, and return to your family.

The Cumberland Fire Department wishes everyone a safe and successful hunting season.

There was a "Starry Night" for Homecoming

The Cumberland Marching Band performed this year's field show "Starry Night" at Homecoming, last Friday, September 20th.

Boys & Girls Club Times by India Braemer, Director, Boys & Girls Clubs of BC

As all of the summer adventures wind down, and the hint of fall in the chill of the breeze, the Boys & Girls Clubs of Barron County prepares for a fun-filled year unlike any other. From new spaces to smiling faces, the organization has set itself apart this year to bring about themes, trauma sensitive environments, and grant-funded adventures. Whether you're in Barron, Cumberland, or Rice Lake, all blue doors are open to members starting on September 3rd.

One of the biggest changes the public will see this year is the complete overhaul and redesign of the Barron Riverview Middle School Boys & Girls Club. Although the club site remains the same, everything within the room has been given what could be

described as the makeover treatment, thanks mostly to the knowledge and expertise of Tesha Horvath. The entire site's contents were relocated out into the hallways of Barron Riverview Middle School in late June by the BGC members and school staff. The site was then painted and redesigned, opting to replace furniture and storage structures to better serve students of all needs.

When anyone walks into the newly designed club space, the phrase mostly heard is, "There's so much room in here!". Members got a first look as they slowly poured in during Barron's second summer session in August and instantly felt at home, glad to claim their new place to belong. Their favorite space so far? The

calm, home-like area in the right corner of the room, which features a couch, rug, lamps, and television, similar to a home living room.

Barron isn't the only fresh, new space this year though. Those members in Cumberland will have a big surprise when they look for their club. As the Cumberland School District offers a fantastic after school program for their elementary students, the Boys & Girls Clubs of Barron County set its sights on those who need us most - the middle schoolers. With an incredible partnership between the organization and the Cumberland School District, the Cumberland Youth Center will now be the Cumberland Middle School Boys & Girls Club, featuring an amazing club space conveniently lo-

cated right inside the school. With this advantage, members will have access to the school's incredible resources like the library, the computer lab, the gym, and more.

In Rice Lake, where there are three clubs (Rice Lake Middle School, Rice Lake High School, and the Lincoln Clubhouse), the staff and Site Directors have been working hard to create fun themes and programs for the members this year. From the magic of Harry Potter, to book clubs, to grant-funded field trips and assemblies, there is much in store for the youth of Barron County.

Whether members are new, or have been through those welcoming blue doors year after year, everyone will love what the BGC has in store to show why great futures really do start here!

Stanford Lutheran Church to Break Ground on New Fellowship Hall

A formal groundbreaking ceremony will be held on Sunday, September 29 at 10 AM to celebrate the beginning of construction on a new fellowship hall for Stanford Lutheran Church west of Rice Lake on Highway 48.

The new ground level building will feature a larger, modern kitchen; an open fellowship area suitable for large presentations and social events; handicap accessible bathrooms and new pastoral offices. The exist-

ing basement fellowship area will be converted to classrooms and a permanent quilting space.

Stanford Lutheran Church is located 5 miles west of Rice Lake on Highway 48. Worship times are Sundays at either 8:30 AM or 10:30 AM with a fellowship hour and Sunday School between services. If you have questions about our ministry, please call Pastor John Bergson at 262-354-4537 or email stanfordchurch@gmail.com.

Rice Lake Area Understanding Grief Support Group

The Rice Lake Area Understanding Grief Support Group, Fall Session, provided and staffed by the Lakeview Medical Center Hospice Care Program, will begin on Tuesday, October 1, 2019 from 6:00 to 7:30 p.m. This group is open to adults who are grieving the death of a loved one. The program offers informa-

tion about the grief process, and gives an opportunity for people to share their thoughts and feelings in an environment of understanding and empathy.

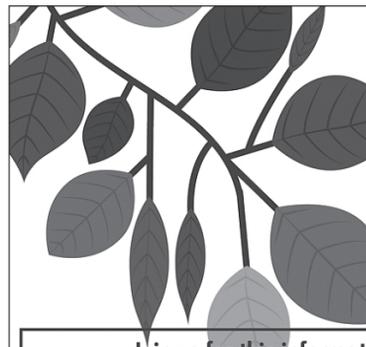

The group will meet for six weekly sessions, each Tuesday evening from 6:00 to 7:30 p.m. beginning October 1, 2019 continuing through November 5, 2019.

These sessions are provided free of charge but **pre-registration is required.**

For more information, or to pre-register for the Fall Session, call 715-236-8470.

VIRTUE CIDER

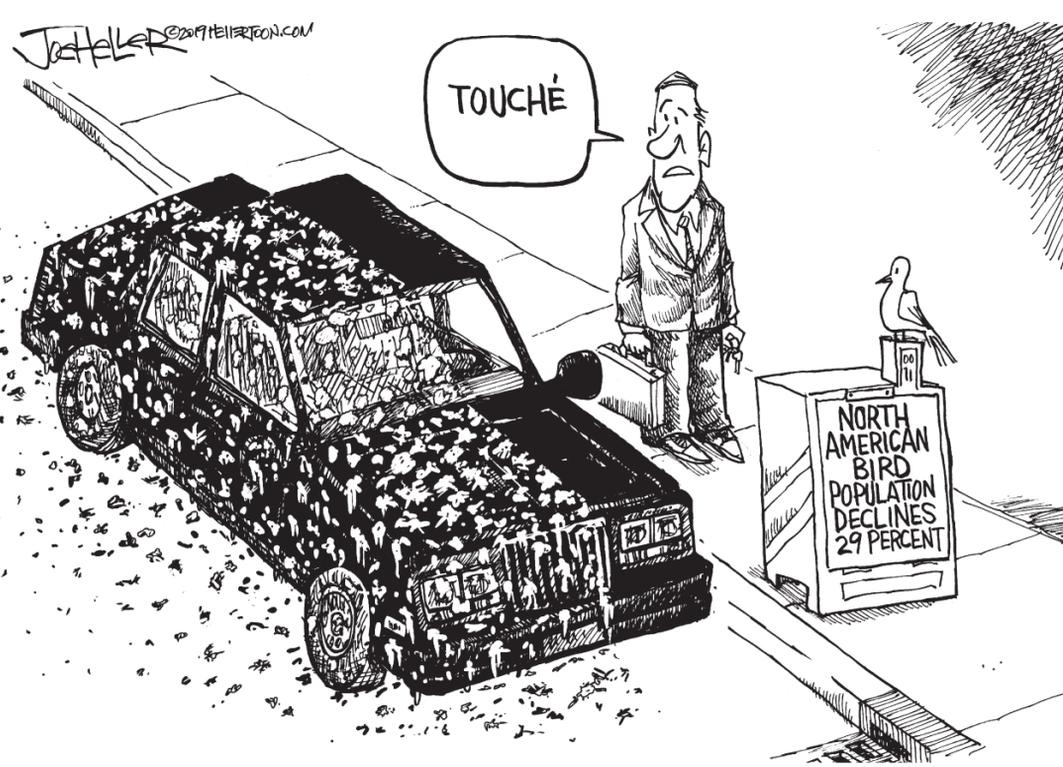

Opinion

By Craig Bucher

I am a baseball fan. Everyone in our family is a lover of the game. My father went to school with the legendary Gopher Coach Dick Siebert and Dick's father was my English teacher. I grew up playing baseball and when I was teaching, I was also coaching. All three of our children, Mark, Paul, and Heather played baseball and softball. It was a great pleasure to be able to watch our grandson, Isaac play for Cumberland. Needless to say, this summer has been a great one for us as both the Twins and the Brewers have had great seasons. I hope it continues, all the way to the World Series. Let me share one of my favorite baseball stories. It involves the pitcher, Tommy John. John had a career that spanned 26 years in the major leagues as he pitched for six different organizations, including both the Yankees and the Dodgers. He was a four time all-star and compiled a record of 288 wins against 231 losses. The left handed pitcher committed only 49 errors in his 26 major league seasons and the arm surgery, "Tommy John" is named after him. But he holds another major league record. One game while he was pitching for the Yankees, he was cruising along with a 4-0 lead. He gave up a single. The next batter swung and topped the ball about 60 feet up the first base line. John hopped off the mound, picked up the ball and dropped it. Error number one. He quickly picked up the ball and fired it toward first base. The ball sailed over the first basemen's head and down the right field line. Error number two. The right fielder picked up the ball and fired it toward home plate where the runner, who had been on first base was headed for home. John, who was now serving as the cut-off man, heard someone yell- "cut two." (That means cut off the ball and throw it home) John cut off the ball, turned and whipped it toward the catcher. One again, the ball was high and over the catcher's head, where the batter, who started it all with the topped ball that dribbled down the first baseline, was headed home. Error number three. When carnage was over the 4-0 lead, without a hit, had dwindled to 4-2 and John was charged with three errors on one play, a major league record. Baseball! What a game. You gotta love it!

SEE YOU NEXT WEEK!

Inside Wisconsin

by Tom Still

Turning early stage rejection into 'yes' can depend on supply of cash

EAU CLAIRE, WI - The Idea Fund of La Crosse and Great North Labs in St. Cloud, Minn., have a lot in common when it comes to early stage investing in the Upper Midwest.

Both funds are roughly the same size in terms of dollars they manage (\$13 million and \$24 million, respectively) and both like to invest in young companies operating in small to mid-sized cities, having closed a collective 24 deals so far.

Managers of these relatively young funds see another parallel: There is market space for more early stage investors like them.

"I think Wisconsin could support 10 Idea Funds based on what we're seeing in deal flow," said Jonathon Horne, managing director of the Idea Fund, which is one of the regional funds that make up Wisconsin's Badger Fund of Funds.

Horne and Mike Schulte, an associate with Great North Labs, spoke during a Sept. 17 luncheon held by the Tech Council Innovation Network on the UW-Eau Claire campus. They described how their funds operate and how they examine the team, technology and market potential of young companies - commonly called "due diligence" - before investing.

What surprised many attendees was how many good

companies fall outside the ability of each fund to invest.

Schulte said Great North Labs has examined about 1,000 basically sound companies over time and Horne estimated he's vetted about 300 qualified startups in two years. That means "no" has been the financing answer in all but 16 cases for Great North and eight deals for the Idea Fund.

The reasons for saying "no" range from uncomfortable risk to products that don't fit the market to regulatory hurdles, but the biggest may be not enough money.

Wisconsin has improved its standing as a state for angel and venture capital deals, but it still falls short in relation to its size. Wisconsin has nearly 2% of the U.S. population but less than one-third of 1% of all venture capital under management. Four states control 80 percent of venture capital and Wisconsin is among those 46 scrambling for its share of the remaining 20 percent.

In 2018, there were 121 angel and venture capital deals in Wisconsin for a total investment of nearly \$281 million, one of the best years on record. Many investors in Wisconsin and beyond think the state has enough strong companies to absorb up to twice that amount. The same holds for much of the Upper Midwest.

Schulte of Great North Labs, which invests in six Upper Midwest states, said the region's lower costs of doing business lowers company "burn rates" for invested cash. In California's Silicon Valley, he noted, 2.2 times more cash is required to retain a fund's 10 percent ownership in a company than in the Upper Midwest.

He's not alone in that assessment. Larger funds such as Drive Capital, 50 South Capital, Lewis and Clark, Allos Ventures, Lightbank Fund and Revolution Ventures have planted flags in the Midwest because they see the potential for deals that make money for them while producing jobs and economic activity. Regional investors will be among those on hand in Madison Nov. 6-7 for the Wisconsin Early Stage Symposium.

How are states positioning themselves for this renewed private interest in the Midwest?

Some have been aggressive about underwriting state funds, matched by private dollars, that co-invest in young companies and other funds. Michigan, Ohio, Illinois and Indiana's Next Level Fund have followed that approach in the belief a rising investment tide will lift all states in the region.

Wisconsin has a toehold called the Badger Fund of Funds, which has invested in

18 young companies statewide through recipient funds such as the Idea Fund of La Crosse. The state of Wisconsin is a limited partner in the fund through a \$25-million investment.

However, investments in funds elsewhere in the Midwest average hundreds of millions of dollars per state. Those dollars are magnets for much more in private investment. For states that have engaged in larger funds, the paybacks can be significant in tax dollars, economic growth and good-paying tech jobs.

Is Wisconsin primed to step up? Yes, but it will require political will to build upon a tech economy infrastructure that is growing but still short on cash. Investors can find profitable reasons to say "yes" if there's more money to go around.

Still is president of the WI Technology Council. He can be reached at tstill@wisconsinintechcouncil.com.

His initial court appearance is scheduled for September 25, 2019. Cody A. Frank, 33, of Rice Lake, has been charged with violating the bond condition to not consume alcohol in Barron County. His hearing is scheduled for November 13, 2019. Nikki L. Schnacky, 33, of Cameron, has been charged with operating a vehicle while revoked. Her initial court appearance is scheduled for September 20, 2019. Lindrieth H. Tsoodle, 64, of Hayward, has been charged with disorderly conduct. Her hearing is scheduled for November 15, 2019. Esteban T. Garcia, 38, of Chetek, has been charged with operating a vehicle without a valid driver's license. Second within three years. His hearing is scheduled for November 20, 2019. Misty D. Matrious, 35, of Cameron, has been charged with extradition prior to government warrant. Her hearing is scheduled for November 13, 2019. Breanna L. Eggebrecht, 24, of Cameron, has been charged with possession of methamphetamine, possession of drug paraphernalia, resisting or obstructing an officer, and not to commit new crimes in violation of bond in Barron County. Her preliminary hearing is scheduled for September 24, 2019. Annie J. Merrill, 34, of Cumberland, has been charged with neglecting a child under the age of six. Her preliminary hearing is scheduled for September 24, 2019. Summer D. Youngbear, 30, of Cumberland, has been charged with neglecting a child under the age of six. Her preliminary hearing is scheduled for September 24, 2019. Timothy Bender, 57, of Rice Lake, has been charged with battery or threat to judge, prosecutor, or law enforcement officer. His preliminary hearing is scheduled for September 24, 2019.

Ratun M. Miller, 19, of Rice Lake, has been charged with domestic abuse, criminal damage to property, computer message-threaten to injury or harm, and not

to commit a new crime in violation of bond in Barron County.

The criminal complaint states that on the morning of Friday, September 13, two female subjects came to the Rice Lake Police Department to report an incident of domestic abuse between Tatum M. Miller and one of the female subjects. They have been dating for approximately two years and have an infant child together.

The female subject states that she was at Tatum's residence the previous night, September 12, and he became upset with her, an argument started, and he began pushing and shoving the female subject, and throwing items at her. He also struck her in the face with a closed fist causing her left cheek to swell and bruise. She also had a scratch on her left shoulder from the altercation.

Officer Koenig with the Rice Lake Police Department, also reports that the defendant damaged her skateboard by carving profanity into it with a razor blade.

Officer Reinikainen, with the Rice Lake Police Department, spoke with the female subject after the defendant was arrested, to obtain further details about what happened that evening. The female subject stated that she went to sleep the night of September 12, and woke up around 1:00 am on September 13, and Tatum was upset. He was very angry and punched her in the face while they were in his bedroom. The female subject asked the defendant to take her home, but when she collected her things and walked out the door, he locked her out and wouldn't open the house or the car for her to put her things in. The female subject then walked to a local convenience store.

The female subject stated that the Tatum called her threatening to beat her again because she had told someone that he had hit her. He also told her that he was going to go get his friends to kill her family and take their daughter. The female subject was afraid for herself and her family so the female subject's mother came to pick her up.

Tatum's plea hearing is scheduled for October 25, 2019. If convicted, the defendant may be fined not more than \$1,000, or imprisoned not more than ninety days, or both.

Emmanuel Torres, 18, of Cumberland has been charged with sexual assault of a child under 16 years of age.

The female subject stated that on June 24, 2019, she was at her cousin's house for a few days to spend time with her. She also stated that a friend picked her up and drove her to Cumberland to meet up with other friends. The defendant who the female subject communicated with on SnapChat, but never met in person was also present at the time.

The female subject stated she and the defendant walked from the meeting place to the beach. The defendant suggested they walk to a nearby campground. They took a short cut through a wooded area, and began swimming.

The female subject stated that the defendant kissed her, and she kissed him back. However, the defendant started to touch her aggressively and she told him to stop. The female subject did not want to do anything serious with him. The defendant then re-arranged her clothes. The female subject told him to stop, but he pulled her closer to him.

The female subject swam back to shore, and got redressed and one of her friends picked her up.

Officer Damrell reports that Detective Dexter with the Barron County Sheriff's Department spoke with the female subject and stated that when the defendant

kissed her, she kissed him back and that the kissing was consensual. However, it became non-consensual when he began to touch her. That was when the female subject told the defendant to stop and tried to push him away.

The female subject also stated that she told the defendant how old she was, and on one occasion, the defendant asked the female subject's cousin how old she was when they were messaging on SnapChat and her cousin told the defendant she was 13 years old.

Officer Damrell reports that on August 16, 2019, she and Detective Dexter spoke with the defendant. Detective Dexter asked the defendant how old the female subject was. The defendant answered 14 or 15. Detective Dexter confronted the defendant about her knowledge that he and the female subject had a sexual encounter. The defendant said that was okay because that was before he turned 18.

If convicted, Emmanuel Torres may be fined not more than \$100,000 or imprisoned not more than 40 years or both.

WI State Patrol Law of the Month

Stop for School Buses

With Another School Year Underway, Drivers Asked to Watch for Buses/Students

As students across Wisconsin are back in school, motorists are being reminded to keep a sharp eye out for students, school buses and crossing guards. The State Patrols September Law of the Month details state laws designed to protect students as they head to and from school activities.

Many Wisconsin school buses are now fitted with amber lights. When flashing, the amber lights tell drivers to slow down because the red flashing lights will soon be activated and the bus is about to stop. Drivers can carefully pass a school bus with amber lights activated, but should do so cautiously.

Wisconsin law (346.48) requires drivers to stop at least 20 feet from a stopped school bus that has its red warning lights flashing. The law applies when approaching a school bus from either direction. The only exception is if you are traveling on the other side of a divided roadway separated by a median or other physical barrier. When passed illegally, school bus drivers are authorized to report violations to law enforcement. A citation for failure to stop for a school bus costs \$326 and four demerit

Cumberland Police Department Call Log

Monday, Sept. 16

Officer received a call from a woman at a local convenience store, stating that there is a male subject yelling at her, took a picture of her on his cell phone, and dumped his soda on the floor. Officer advised, subjects left and no complaint was made.

Officer received a call from a male caller stating that there is a subject that needs to be escorted off the property. Officer advised and the subject left without incident.

Wednesday, Sept. 18

Officer received a call from a female subject advising that someone ran into her parked car at a local convenience store. Officer advised.

Officer received a call from a male subject who works at a local tavern advising there is a man who is suicidal. The man wanted a beer but was denied because he was possibly under the influence of something else. He was given a ride to a local hotel, but then took off on foot. Officer advised, and tried to make contact with the man's wife.

Thursday, Sept. 19

Officer received a call from a female working at a local convenience store, stating that someone keeps writing bad checks. The female stated that recently she threw a check on the counter and left after pumping gas. Officer advised.

Officer received a call advising that there is a female subject sitting in an unknown vehicle with unknown plates. They are not sure if she is having medical issues, as she has been sitting there for a while, and would like her to be checked out. Officer advised and saw the driver's side door is open and the subject's leg is hanging out. The subject has a flat tire and is waiting for someone to come and fix it.

A call was received advising there is an alarm going off at a local business. Officer advised and everything was okay.

Officer received a call from a male subject advising that his son pushed him into his windows. Male subject declined EMS and there are no broken windows. Caller just wants him gone. Officer advised.

Officer received a call advising there is disorderly conduct going on at a local store. Officer advised, and store did not want to press charges.

Saturday, Sept. 21

Officer received a call that there is an alarm going off at a local business. Officer advised and both doors

are secure, and no doors were open.

Officer received a call from a male subject advising that his mother went to the laundromat a while ago. The mother called her son advising there was a man there yelling obscenities and carrying a stick. Officer advised, and the man had already left.

Officer received a call from a female subject, advising she was passed by a vehicle going extremely fast. Caller advised that the driver is driving erratically and was showing signs of road rage. Caller willing to make a statement.

Officer received a call from a female advising that there is a man following her and won't leave her alone. Caller advised she was involved in a domestic problem. Officer advised, and it was a verbal domestic.

A female caller advised that there is a car in her driveway and someone is knocking on her door and refusing to leave. She also advised that they keep turning their headlights on and off. Caller states that they knocked on her front and back door saying they are "just strangers looking for gas." They also had a flashlight looking around on the roadway. Officer advised.

Sunday, Sept 22

Officer received a call from someone who has a suicidal subject that might be stopping at a local gas station. Officer advised, and subject is not suicidal.

Hospice Training Offered free of charge at LMC

The Lakeview Medical Center Hospice Care Program will offer Hospice volunteer training to begin on October 7th. Training is provided free of charge.

LMC is seeking caring individuals to give a few hours a week to assist the terminally ill and their loved ones within a 45 mile radius of Rice Lake.

Becoming a volunteer is similar to helping a neighbor in need. No medical skills required.

Training begins on October 7th, continuing each Monday and Thursday evening through October 28th.

Pre-registration is required. Please call 715-236-6255 to register or for more information.

Become a Hospice Volunteer!

Hospice Volunteers are men and women of all ages and backgrounds.

All have a desire to make a difference in someone else's life by sharing their time, special talents

and compassion with those who are dealing with a terminal diagnosis.

Hospice volunteers may sit with a patient so the caregiver can make a doctor's appointment, a trip to the store, take a break or take a nap. They might cook a meal, sweep the floor, run errands, or sometimes, most importantly, just sit bedside and be a quiet, comforting presence. To meet the needs of our Hospice patients and family members, we are specifically in need of volunteers with daytime availability.

Opportunities also exist for Hospice volunteers to participate in patient and family services unique to Lakeview Medical Center Hospice such as our: "Life is a Celebration" dinner parties, Tuck in service, 11th Hour program and "Heart Strings for Hospice." Individuals interested in visiting Hospice patients with their dogs through the "PAWS with Heart" program are sought as well.

Cumberland Football Picks Up Homecoming Victory

The Cumberland Beavers entertained a big Homecoming crowd with a 58-6 victory over the Cameron Comets last Friday at Endeavor Stadium. The Beavers record moves to 4 and 1 on the year as they prepare for a road game at Bloomer this Friday night. The Blackhawks come into the contest with a perfect 5 and 0 record.

"We played exactly how we wanted to in the first half, executing on offense and playing solid assignment football on defense," said Coach Corey Berghammer. The Beavers rolled up a 36-0 first quarter bulge, which built to 50-0 by half. It's always exciting to win your homecoming game in front of your fans. This will be another great memory for our seniors," Berghammer added.

The Beavers hit on all cylinders as they scored on their first offensive play from scrimmage and never looked back. The opening touchdown coming on a short pass from Maddux Allen to Jack Martens, which Martens took 68 yards to the Cameron end zone. Martens added the conversion run to give the Beavers an 8-0 lead forty seconds into the contest.

After a quick three and out by the Comets, the Beavers would score again, this time on a five yard Martens run. Before the quarter was over, the Beavers would put

up three more touchdowns on short runs by Sam Schradle, Josh Bauer, and Riley Otto. The rout was on.

Coach Berghammer used his entire roster before the contest was over, getting carries from 12 different running backs in the contest. The second half was played with running clock as Cameron put up a touchdown in the third quarter on a 42-yard pass.

Allen had another solid game at quarterback, completing 10 of 13 passing attempts for 259 yards and three scores. Martens caught seven of those aerials for 226 yards and two scores. DaShawn Ames added two catches for 34 yards.

The leading ball carrier was Otto, who picked up 61 yards on five carries. Josh Bauer added 33 yards on four attempts.

The defense held Cameron to 134 total yards as they created four turnovers including interceptions from Otto and Drew Griffith. Carter Bickle had a team high eight tackles, while Lucas Anderson had seven.

Next Fridays contest will match two potent offenses led by proficient quarterbacks. Blackhawk quarterback Isaiah LaGessee threw for 333 yards and three touchdowns last Friday in Bloomers 42-14 victory over Ladysmith. It should provide for an entertaining game for local football games.

Cross Country Team Runs at Chetek

The Cumberland Cross Country Team traveled to Chetek last Thursday, where they participated in the Dan Conway Invitational. Barron went on to win the Girls seven team competition, with Cumberland finishing in fifth place.

Freshman Fran Peterson of Barron took the girls portion of the event, running a 20:59. Cumberland's JulieAnne Johnson led the Cumberland delegation, running a 25:01, good for 14th place. Teammate Lexi Tschirhart was right behind, finishing 15th with a time of 25:04. Val Pasko would come in 23rd with a time of 25:58.

Clear Lake ran away with the boys competition and although Cumberland did not have enough runners to qualify as a team, Wayne Ankarlo finished as the meets 27th place runner

with a time of 21:48. Matthew Marcinske of Birchwood won the boys portion of the meet with a 17:28. Cumberland's Evan Knutson finished 58th with a time of 24:14.

In the 1.8 mile Middle School competition, Rice Lake took home the Boys Meet, while Amery won the girls competition.

Cumberland's Alex Efferetz ran a 12:02 to finish 13th overall for the boys, while sixth grader Miah Mendoza, ran an excellent 13:09 to finish eighth among the girl runners.

The team runs on Thursday this week in Barron with a starting time of 4:30 pm. Next Tuesday, October 1, the team holds their own Invitational at the Timberland Hills/CASTA Ski Trails beginning at 4:00 pm. The public is invited to attend.

Volleyball Team Falls to Good Bloomer Squad

The Cumberland Volleyball Team traveled to Bloomer last week, dropping three of four games to the Blackhawks.

"The girls battled one of the toughest teams in our conference and played solid volleyball overall. We didn't serve as well as normal and against a team like Bloomer that is critical. Overall I am proud of how we played," said Head Coach Teri Lesnar.

Cumberland won the sec-

ond game of the night 25-20, but dropped the three remaining contests all by 25-14 scores.

Ania Hyatt had a nice night for Cumberland leading the way with seven blocks and 13 kills. Payton Nyhus and Amie West led the team with nine assists each.

Cumberland hosted Hayward on Tuesday and travel to Ladysmith this Thursday night for a 7:00 p.m. match-up.

Golfers Gearing Up For HON Conference Tournament

Tuesday September 3rd, the girls traveled to Spooner for a first hole match. Finishing first was Spooner with a score of 216, followed by Cumberland with 262 and Luck/Unity. Medalist for the match was Sydney Greenfield (Spooner) with a score of 46. Medalist for Cumberland was Alleah Anderson with a score of 58. Other individual scores for Cumberland were Reyna Bertelsen 61, Sydney Jain 65, Brigitta Maas 78,

Bailey Sellent 68 and Carly Friess 88.

Wednesday the girls traveled to Big Fish in Hayward for an eighteen hole invitational. There were eight teams competing with Cumberland finishing sixth. Winning the invite was Spooner with a score of 491, followed by Superior 491, Ladysmith 507, Barron 507, Chetek-Weyerhaeuser 541, Cumberland 543, Luck-Unity 566 and Hayward. Medalist was

Soccer Team Picks Up Big Wins Over Spooner and Amery; Sandman Has Big Week

The Cumberland Soccer Team picked up a couple big Middle Border Soccer wins last week, defeating Spooner 6-0 and Amery 2-1. After playing Baldwin-Woodville on Monday, the team hosts Barron this Thursday night in a 7:00 pm start. It is "Kick Childhood Cancer Night" with the public encouraged to attend.

Against Spooner, Ethan Sandman became the first Cumberland player in the

history of the program, to score four goals in one game. Tanner Johnson and Chase Lussier added Cumberland's other two scores in their lopsided victory. Matthew Friess, meanwhile, pitched a shutout in the Beavers goal net.

"Our defense played very well holding off some fast and clever Rail players. Tyler Bohn and Andrew Cunningham are solid as center backs and Raven Broker and

Bryce Baldwin are playing very consistently on the outside," said Coach B.J. Brenna. "These guys keep putting in the effort in practice and it shows on the field," he added.

Thursdays victory in the annual Homecoming match resulted in a one goal victory, the first Beaver win over Amery in Cumberland Soccer history.

The Beavers went up early as Sandman intercepted

a Warrior goal kick and put it past the keeper for a 1-0 lead. A subsequent penalty kick by Sandman later on in the game would be the game winner as Cumberland held the Warriors off in the 2-1 win.

"This team is pulling together and realizing they can accomplish great things despite adversity. The challenges make us stronger," concluded Brenna.

An Outdoorsman's Journal

by Mark Walters

The Nest is Empty

Hello friends,

Three weeks ago today I followed my 18-year-old daughter Selina Walters to UW Stevens Point, helped her move into her dorm, and drove home to an empty house for the first time since 1997. As many of you know Selina's entire childhood was a regular part of this column.

The weekend after Selina moved out I was at my 40th high school class reunion and two classmates told me that they thought I should do a column on Selina so here it goes.

When Selina was in her mother's womb, I used to talk to her all of the time. When Selina was born I was there and at first everything was going well and then it wasn't. It was determined that Selina was breached, and the doctors and nurses became very serious.

When Selina was born we looked at each other's eyes amidst all of the stress and I swear to God she smiled within ten seconds of being born. I gave Selina the nickname of Goof right then and there and it stuck her entire life.

From day one I was always a hands on hang out with my daughter kind of dad, and it did not matter if it was teaching her to plant trees, hang out in the garden or her favorite, to love up the golden retrievers, in her 18-years at this house there was Star, Pearl, Ice, Fire and Ruby.

Selina grew up in a canoe and like her dad likes to paddle more than listen to a motor. Though she was in a canoe at three-months of age her first dad, daughter trip was on the Chippewa Flowage, it was April, she had just turned two and was eager to test her new paddle.

Our agreement was in order to go she had to use an outhouse which she mastered. On day one, it was maybe 50-degrees. I had a rope that was maybe 20-feet long tied to her life jacket and she was up front, kind of paddling when she lost her balance and was now floating behind our canoe in very cold wa-

ter.

I pulled on the rope expecting to see her balling her head off in the frigid water, but she wasn't. When I got her in the canoe she started balling and when I asked her what was wrong, she pointed to her paddle which I would have lost had she not remembered it, she never said about the cold.

Selina would winter camp, deer hunt, duck hunt, and cross-country ski, and I cannot remember one-time hearing that she was cold.

When she was three we were camping and she fell out the side door of our minivan. It was an ugly fall but she got right up and said daddy I am ok. In reality the next day she woke up in immense pain, I took her to the doctor and we found out her arm was broken and the arm had to be reset, once again she did not cry.

I took Selina to her first day of school and right then and there made the decision that I was going to volunteer in her classroom. I did just that once a week where I taught outdoor stuff to her entire class for five years. The year I stopped is the year that I came up with the idea to start Kids and Mentors Outdoors.

Selina excelled in school and was big on spelling bees and statewide speech competition. She always wrote her own speech's and together we refined them as I was her audience and constructive critic.

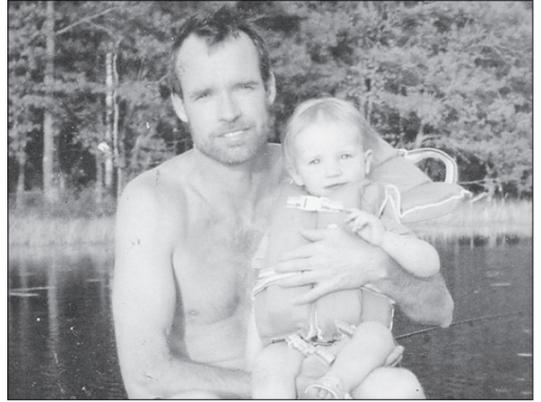

She followed this narrative all the way until her last month in school when for the second year in a row she made Internationals for DECA and was the president of her chapter.

Selina was never a gifted athlete, but I always taught her to enjoy herself no matter what and support her team and school.

Something that really helped her in many ways was volunteering. At Necedah High School they have a club that is called t300 Club and to get in it you have volunteer for 300 hours and it must be documented. Two kids made the 300 Club this year and

Star, Selina, and Pearl when Selina was two months old.

Like her dad, Selina Walters loves being in a canoe!

Selina was one of them.

Doug Staller was the Necedah National Wildlife Refuge manager when Selina was a freshman. I took Selina to the refuge for a prearranged meet and greet. From that moment these two were friends and she began volunteering at the NNWR and I believe it was those experiences and the thousands of experiences that we shared together that inspired Selina Walters to obtain an education in Environmental Sciences with the thought of becoming a wildlife biologist and possibly the manager of a national wildlife refuge someday.

The two weeks before Selina left for Stevens Point were really hard for me as they are for all parents but when I look back at the chain of events over the last 19-years I would not have changed a thing.

OBITUARIES

Roselee Larson

Roselee Larson was born in St. Paul, Minnesota to Allen and Elna Metcalf, the fourth of 6 children. She was the longest living sibling of her sisters and brothers. She married Vern Larson on August 8, 1942. Vern joined the United States Army and served as a career soldier and officer in the Pacific, Post-war Japan and France. He also served in Colorado, New Orleans, Korea, Germany and Duluth, Minnesota. Military service defined their life. Vern preceded Roselee in death on March 17, 2005. They had been married for nearly 63 years. They both retired from 3M St. Paul to Lake Vermillion in the early 1970s.

The First Lutheran Church in Cumberland was their

church home for over 40 years. Roselee sang in the choir and enjoyed participating in her circle. They had many friends in the congregation.

Roselee enjoyed entertaining, sewing, knitting, playing the piano and autoharp. They loved their lake home on Vermillion, surrounded by wonderful neighbors who have been their friends for many years. She took great delight in volunteering at the Cumberland nursing home providing nail care for the residents. She sought out those who were lonely and would sing old hymns and listen to their life stories.

Roselee and Vern enjoyed traveling in their motorhome throughout the United States and meeting military friends.

She is survived by children Charlotte (Mike) Neely of Woodbury, MN, Vern (Kathleen) Larson of Marine on St. Croix, MN, Vianne (Allan) Bjornberg of Westminster, CO, eight grandchildren, four great-grandchildren, sister-in-law Corinne Metcalf of Maplewood, MN, many nieces/nephews and dear friend and caregiver Valerie Hegg of Turtle Lake.

A celebration of life will

be held at 11 AM on Monday, September 30, 2019, at the First Lutheran Church in Cumberland.

In lieu of flowers, memorials may be made to First Lutheran Church music/building program.

Skinner Funeral Home of Cumberland is serving the family.

Grace Beverly Ann Schradle

Grace Beverly Ann Schradle of Clayton, WI, passed away on September 16, 2019, at the young age of 16. Our gift from God, our sweet amazing Grace was taken from us too soon and unexpectedly, but the life that she did live was to the fullest, all while sporting a huge smile.

From the day she entered

this world, Grace was beaming with passion, joy, and positivity wherever she went. She was always happy. She had the humor and beauty of her mom and the occasional wild hair and outgoing magnetic personality of her father. She carried the most contagious smile and from-your-belly-laugh that will be cherished forever. Grace loved life and all those in it. She had a kind, humble, beautiful, generous, gentle, loyal and loving heart. She touched so many lives. Grace was brave and fearless. She was never afraid to try something new and was always looking for an adventure. She always thought outside the box. She was never afraid to say what was on her mind.

Grace set goals this year. She wanted to earn student of the month at Clayton High School. She wanted to pick a college after taking her ACT. She wanted to attend UW-Eau Claire or Superior to earn a degree in education. Her locker quote was: "Be legendary." One of her mottos was: "Friends, coffee, and sunshine." Grace's hobbies included many things: volleyball (her passion), basketball, softball, riding horseback, cuddling with her cat

(Georgina), shopping, drinking an occasional Caribou coffee, going out to eat, going to the movies, spending time with her best friends (Abbie, who was like a sister; Amelia; Corey; Logan; and MJ). She also loved hanging out with her boyfriend (Jacob), teammates, cousins, older siblings, entire club family, Bill and Jolene, grandparents, and Mom and Dad. This world was better with her in it. Now, she will live within all of us.

She is survived by her parents: Chris and Stacey Schradle; siblings: Kaitlyn (Evan) Jamar of Duluth, MN, Kelsey (Jacob Giersch) Anderson of Menomonie, Jake (Jayden Tetner) Anderson of Menomonie; grandparents: Danny and Susan Sutton of Shell Lake, William and Beverly Schradle of Clayton; aunts and uncles: Suzanne Schradle of Yuma, AZ, Michael and Diane Schradle of Clayton, Patrick and Shannon Schradle of Cumberland, Jeremy and Amanda Schradle of Clayton, Ryan and Lesley Schradle of New Richmond, Shawn and Nell Schradle of Clayton, Nicholas and Beth Schradle of Clayton; special aunt, Trudy Hamilton of Clayton and longtime

family friend, William and Joleen Franko of Green Bay; Godparents Heidi and Larry Shafer; 26 cousins, many other relatives and friends.

Funeral services were held on Monday, September 23, 2019 at Zion Lutheran Church in Turtle Lake with Pastor Steve Miller officiating.

Skinner Funeral Home of Turtle Lake is serving the family.

Four Locations**
*"We Treasure the Trust
You Place in Us."*

Church Directory

Knowing God

By: Pastor Preston Paul

St. Matthews Lutheran Church, Almena

"Let me hear...what God the LORD will speak."

Psalm 85:8

If you believe that God created all things, or at least is the architect, then you are able to look at nature and deduce a few things about God. "He who planted the ear, does he not hear? He who formed the eye, does he not see?" (Psalm 94:9). It is logical that the one who poked a hole in each side of your head (ears)...hears. Obviously, the one who thought it good to create eyes...sees.

The fact that you have ears must mean God desired you to hear something-the sounds of nature no doubt, but also sounds from Him, His mouth (he gave you one of those too). Receiving Words of God must be the primary and most important purpose of your ears. How else would you know Him more fully and completely? We can infer a few things about God from His creation. But there is much more to an architect and carpenter than the houses they design and build

There is much more to know about God than can be reasoned from nature. And there is also the possibility that what you may glean from nature about God is wrong. Humans regularly presume wrong things about other humans. Surely, you are capable of doing the same with your assumptions and feelings about God.

God has revealed who He is in the Bible. He shows His personality to you with words, words for your ears. The Bible is "God breathed," words from His mouth. Christians fill their ears with God's Word. (The dear "hear" through eyes or fingers if they are blind).

Christians guard themselves from "contracting" itchy ears...."For the time is coming when people will not endure sound teaching, but having itching ears they will accumulate for themselves teachers to suit their own passions, and will turn away from listening to the truth and wander off into myths" (2 Timothy 4:3-4). The Bible is the Word of God for your ears! May God lead you to a congregation, if you haven't one already, where your ears are filled with God's Word that you may have life and know the joy of Jesus.

Barronett News

By Judy Pieper

The big weekend has arrived!!! It's time for Color Fest in Barronett. All the fun starts with the famous spaghetti dinner on Friday evening. There will also be hayrides, meat raffles and cake walks that evening. It's a great way to relax, visit with friends and enjoy the beautiful fall colors.

Then, on Saturday there will be a craft fair, the beginning of the slow pitch softball tournament, Dairyland Garden Tractor Pull, scavenger hunt, bean bag tournament, keg toss and brick bounce, and, of course, the pie and ice cream social. And, members of the civic club will be serving great food at the concession stand.

The dunk tank, which everyone seems to love, will be going on both Saturday and Sunday afternoon. Local celebrities have volunteered to sit in the hotseat, so come on by and dunk whoever you choose. It's lots of fun to see the look on their faces just before they hit the water.

Sunday will start with Barronett Lutheran Church worship service at 9:00 a.m. Home made cinnamon rolls and beverages will be served immediately following the service.

The slow pitch softball tournament will be finishing up on Sunday afternoon. And, the produce and flower judging will be at 3:30. The kids pedal tractor pull starts at 12:30. The wine and cheese tasting booth will be open at 2:00. Music by Cool to the Touch starts at 3:00.

Remember, there is a new contest this year - The Best Photo contest is open to amateur photographers, and judging will be at 3:30 on Sunday. There is a \$5.00 per picture entry fee. Pick any subject and format and bring in your best pictures for the contest.

Of course, I have to put in one more plug for the kids' parade. We want this to be the biggest kids' parade in the history of Color Fest. The parade starts at 11:30 on Sunday, so please have your little ones to the community center by 11:00 so we can get them organized and ready to march. We will have balloons for them to carry and candy for them to throw. They can ride their bikes, pedal tractors, battery operated vehicles, scooters, or just walk. They can dress as their favorite action figures, historical figures, or just dress as themselves. Please bring your sons, daughters, nieces,

nephews and little neighbors to our parade. They will have a lot of fun, and there will be pictures taken. See you there.

I've probably missed mentioning a lot of things that will be going on, so be sure to check out the ads in the paper and the brochures posted around town to get the full story of events. It's our biggest weekend of the year, so we hope you can join us for all the fun.

Oak View Adult Family Home hosted the annual Employee Appreciation Picnic on Sunday afternoon at the building site of their new family homes. There was plenty of food for everyone, playground equipment for the kids to play on, and gifts for everyone. Lots of pictures were taken, which I'm sure will turn up on the Oak View website. We all had a great time visiting and relaxing.

Jay Olson is up from his home in Missouri for a week-long visit. While he is here, he is planning to put the finishing touches on his hunting shack and finish up a list of things that his mom, Pat, has for him to do. And, of course, to visit with other family and friends. He and his son, Jace, will be back in November to try to bag the big buck.

Remember last week when I told you that Geri Pittman found a half of a pair of pliers in one of her tires? Well, Rita Arnes said that she thinks she has that beat. She found an unspent cartridge (I don't remember what kind of a bullet) in one of her tires. Man! I can understand that there might be a bullet shot into a tire, but how in the world could one get in there when it hasn't been shot through a gun? If you have found anything unusual in your tires, we would certainly like to know about it. I'll bet you can't beat Geri and Rita's stories.

Visitors are welcome at our house again - The sauerkraut is canned and put away. Now, if you decide to visit, you can come into the house instead of sitting outside. Man, that stuff really stinks when it is fermenting. It's embarrassing.

Michael, from Oak View Adult Family Home, gave us a joke this week. He asked, "Do you know what speech President Lincoln wrote on a plate?" The answer is, "The spaghetti's address."

I guess that's about all I know from Barronett this week. I certainly hope you can join us this weekend for the Color Fest. And, I especially hope that you will bring your children to the kids' parade. Hope to see you there.

PUBLIC NOTICES

CUMBERLAND BOARD OF EDUCATION MINUTES

Monday, August 19, 2019

Regular Board Meeting
Administration Building, Conference Room,
6:00 p.m. Open Session and Closed to follow.
 Present: Board - Gideo, Hyatt, Rieper, Skinner & Stone
 Administration - Rose, Richie, Green & Narges
 President Stone announced that this was a legally and properly noticed meeting.
 Pledge of Allegiance was recited.

- Motion was made by Gideo, seconded by Rieper, to approve items a-e on the Consent Agenda as presented. All voting aye, motion carried.
- Lorne Majewski gave athletic update.
- a. Motion was made by Rieper, seconded by Skinner, to award the fuel bid to Synergy Cooperative. All voting aye, motion carried.

REQUEST FOR PROPOSALS

The Barron County Highway Department is Requesting Proposals (RFP) from architectural and engineering firms interested in submitting qualifications to provide a facility study and conceptual design of a county highway facility. Firms should be experienced in highway/public works facility design and be able to provide a minimum of two similar projects completed in the last three years.

Any interested firms can receive a copy of the RFP by contacting the Barron County Highway Department office at 715-637-3755, attention Mark Servi. The RFP is also available on our website, at www.barroncountyiwi.gov. Interested parties are responsible for monitoring the website for information concerning the RFP and any additional information issued.

Barron County reserves the right to cancel or modify this solicitation at any time if it deems such measures are in Barron County's best interest.

Barron County looks forward to reviewing your RFP submittal and working with the selected team in a successful development of this project.

Mark Servi

Barron County Highway Commissioner

The Bookworm Sez...

By Terri Schlichenmeyer

This week:

The Book of Terrifyingly Awesome

Technology by Sean Connolly

c. 2019, Workman • \$15.95 • 227 pages

Sometimes, you really need to feel sorry for your Grandpa.

Back when he was your age, telephones were tethered permanently to the wall. He had to get off the sofa to change the TV channel, and the only computers Grandpa ever heard of were inside warehouses owned by big businesses. You gotta love modern times, right? And with "The Book of Terrifyingly Awesome Technology" by Sean Connolly, you'll love everything that comes with it.

S.T.E.M.

You've heard about it, probably in school. It stands for Science, Technology, Electronics, Mathematics and in this book, Connolly says he's going to focus on "the 'T' of STEM" to show that it's cool with "a whiff of danger."

Take, for instance, the fact that scientists have figured out how to make plants grow in space. No big deal, right? Until you know that the plants grow much faster than they do on Earth and well, it's good

(more food for the people on the planet) and maybe bad (what if things "get out of control"?). See the problems, and do an experiment for yourself, by peeking at page 7.

Or how about this: Connolly says that voice-related technology that follows you around is already being used. It's creepy, but it's sometimes funny - or is it? What if it was music, rather than ads, or sounds that hurt your ears?

You might already know that there's danger on the internet, and that extends to WiFi. Connolly explains why, and he offers a couple of scenarios to make you think. He also explains why some people might be "genuinely terrified" by the idea of Virtual Reality, along with a fun experiment.

Is your bedroom wired for everything? Then you'll want to know why "the Internet of Things" may not be a great idea. Read about why GPS isn't always what it's cracked up to be. Learn how 3-D print-

ing is good and bad. Find out why drones are cool and not-so-cool. And see how lunch in the future might be different than what you saw on your plate today. Bon appétit!

Sometimes, you have to marvel at the speed with which your child adapts and uses technology. It seems as though it's an extension of her fingers but you know that, like any other good thing, it has its dangers. "The Book of Terrifyingly Awesome Technology" explains some of them.

That, of course, isn't going to turn your child away from the future; quite the contrary, this book is going to whet his appetite for everything STEM. Author Sean Connolly gives young readers the low-down on high-tech by laying out the good and the cautionary, envisioning the future just a little bit, and then he offers experiments so that older kids can get their hands dirty, (mostly) without adult supervision.

For a child who's tech-

minded, that's gold; for a kid who's not so techy, it's a good way to get her started. Your 9-to-15-year-old will have fun with "The Book of Terrifyingly Awesome Technology" coz it ain't his Grandpa's book.

If you're in search of something great to take in the car, on vacation, on the tractor, or to the lunchroom, Terri can be reached at bookworm-sez@yahoo.com. Happy Reading!

From the Secretary's Desk:

Trump's Attacks on CWA and ESA Hurt Wisconsin Hunting and Wildlife

by Doug La Follette, Wis. Secretary of State

September is a special month here in Wisconsin. Not only does the beginning of the fall bring back Packers football, autumn leaves, and Oktoberfest beers; it also kicks off hunting season for duck, turkey and deer across the state. And for many Wisconsinites, these hunting seasons represent the best time of the year, as hundreds of thousands of residents head out to take advantage of the state's plentiful wildlife.

Hunting is one of our most cherished traditions. Passed down from generation to generation, it has become embedded in our economy, our identity, and our culture. But hunting is heavily reliant on another important tradition: Our dedication to the conservation of wildlife itself. Wisconsin's hunting culture, its fascination with the outdoors, and even its tourism industry are all dependent upon our passion for the stewardship of wildlife. But, recently, this tradition has been put under significant threat by attacks from the Trump Administration and the Republican Party, and that has deep consequences for the future of our state.

Wisconsin has been able to maintain stable populations of wildlife, in part, thanks to two vital federal protections: The Clean Water Act and the Endangered Species Act. However, both of these once-bipartisan efforts are being targeted and stripped away by the current administration.

The Clean Water Act (CWA), which was passed in 1972, is generally interpreted by the public in the simplest terms, as a mechanism for the prevention of water pollution in bodies of water like rivers and lakes. But outside of that traditional image of water protection is one of the CWA's most important functions: wetland conservation. Between the 1920s and the 1970s, Wisconsin lost about 47% of its wetlands. The CWA has helped dramatically slow this destruction through regulations and other protections. This is important because wetlands supply vital habitats or resources for 75% of the wildlife in the state, including ducks, deer, cranes, and thousands of other species. And it's why we've seen hunting groups, like Ducks Unlimited, and environmental groups, like the Sierra Club, work side by side in advocating for the future of the CWA.

The Endangered Species Act (ESA), was passed the following year, in 1973. This legislation set out to identify and protect endangered species, primarily through the designation and the preservation of critical habitats. Through federal funding and incentives to states, the ESA has helped save cherished Wisconsin species like the whooping crane, the gray wolf, and even the bald eagle from almost certain extinction. And while Wisconsin only has eighteen animals currently listed as threatened or endangered, their protection helps maintain countless other species. After all, a threatened species indicates a threatened ecosystem, and a protected habitat for a Canada Lynx is also a protected habitat for a White Tailed Deer. The Endangered Species Act isn't just important for endangered species, it's important for our wider preservation of wildlife.

Unfortunately, in recent months, the Trump Administration seems determined to tear down these institutions that help us preserve our wildlife and the traditions that we tie to it. Surrounding the Clean Water Act, the administration is removing a 2015 interpretation that helps extend protection of wetlands from chemical runoff, which affects the mortality and the reproduction of waterfowl and other animals. On the Endangered Species Act, Trump is removing protections for threatened species and their habitats while making it more difficult to list endangered species. Both of these actions limit our ability to maintain the species and habitats that make this state great, while also limiting our ability to save them if weakened protections cause their demise.

But none of this should come as a surprise. Whether it's by dismantling the CWA and ESA, opening pristine wildlife refuges to commercial drilling, ignoring habitat-shifting climate disruption, removing public lands protection, or almost any other environmental action by this administration, this President has consistently attacked our tradition of wildlife conservation, and in doing so he has attacked our people, our hunting, and our state as a whole. At a time at which climate change is threatening the niches of thousands of Wisconsin species, at which invasive species are posing increased harm to our ecosystems, at which animal diseases are still spreading throughout the state, we should be doubling down on our efforts to protect wildlife, not tearing down our efforts.

Doug La Follette is a scholar, author, longtime environmental advocate, former state senator and the current Secretary of State of the State of Wisconsin.

The Cumberland U12 soccer team placed 2nd in the Spooner Jamboree on Saturday September 21st after a hard fought battle in the championship game. They lost to Barron 2-1 after an overtime session on a penalty kick to decide the winner. Front Row (left to right): Cash Rouzer, Mason Capra, Gabe Graff, Evan Hornstein, and Kiera Fox. 2nd Row: Davis Ristow, Miah Mendoza, Ian Sellent, Alexis Roff, Max Odden, and Presli Butzler 3rd Row: Coaches Brent Sellent, Tim Butzler and Sarah Fox.

Business Disaster Recovery Microloans Available Through the West Central Wisconsin Regional Planning Commission

The West Central Wisconsin Regional Planning Commission (WCWRPC), a multi-county planning agency serving seven counties in west central Wisconsin, is the regional administrator of the Wisconsin Economic Development Corporation's Disaster Recovery Microloan Program. The Disaster Recovery Microloan Program works to provide short-term financial assistance to businesses affected by a natural or man-made disaster event with a corresponding State of Emergency or Federal Disaster Declaration.

The loans are for up to \$20,000 at a 0% fixed interest rate. Pay back is over a 36-month term, with payment deferred during the first six months. To be eligible, a business must:

- Be located within the seven-county region (Barron, Chippewa, Clark, Dunn, Eau Claire, Polk, and St. Croix);
- Have suffered measurable physical losses because of a disaster event; and
- Attest to intent to resume business operations in the community as quickly as possible.

Eligible activities include procurement of cleanup and restoration of services; operational expenses such

as payroll; rent/mortgage for temporary space; and repair and reconstruction (architecture & engineering costs, equipment/furniture/fixtures).

According to WCWRPC's Executive Director Lynn Nelson, "The extreme weather in late July, which brought widespread storms and high winds, caused significant damage in the region. The Governor, under Executive Order #35, issued a State of Emergency due to

the extreme severe weather. The Disaster Recovery Microloans allow us to assist businesses who have been physically impacted by these events to resume operation in the community as quickly as possible".

If you know of a business who could use these funds as a result of the July storms, or to apply for funding, please contact Tobi LeMahieu at tlemahieu@wcwrpc.org or by phone at (715) 836-2918.

JOIN US TO CELEBRATE CHERYL JAASTAD'S RETIREMENT

Many of you know her by her voice. She is the one who answers the phone most of the time for Cumberland Municipal Utility. She has often been the first face our customers would see when walking in our doors. She is the one who has provided wonderful service to our customers for 30 years. Cheryl started her career with Cumberland Municipal Utility as our Office Assistant in July of 1989! Her dedication to her job and our customers is what has made Cumberland Municipal Utility a better place to work.

Please join us to extend best wishes, offer congratulations & well wishes, to reminisce or offer retirement advice to Cheryl on Friday, September 27th from 11am - 2 pm at the Cumberland Municipal Utility office, 1265 2nd Avenue.

You are welcome to come for a minute or stay for a while!

Barron County Farm Bureau Hosts Annual Meeting, October 8

Members of the Barron County Farm Bureau will hold their annual meeting on Tuesday, October 8, at 7:30 p.m. at Barron Electric in Barron.

All Farm Bureau members are encouraged to attend this important meeting to help create policy resolutions and vote in elections for county board directors. Also being selected will be the county's voting delegates for the WFBF An-

nual Meeting in Wisconsin Dells, December 7-9.

As a grassroots organization, it is Farm Bureau's members on the county level who set the policy goals of the state's leading farm organization. The Farm Bureau is often asked to get involved in issues affecting production agriculture and rural communities in Madison and Washington, D.C.

Made up of 61 county Farm Bureaus, the Wisconsin

Farm Bureau Federation is the state's largest general farm organization representing farms of every size, commodity and management style. This year the organization is celebrating its centennial. Learn more by visiting wfbf.com/centennial.

For more information, contact District 9 Coordinator Katie Mattison at 866.355.7349.
