

Cumberland Mourns the loss of Judge Kathryn Ault

Kathryn Ault

Cumberland was saddened by the news of the death of Attorney, Municipal Court Judge, and longtime Cumberland resident Kathryn H. Ault. Kathryn will be missed by all who knew her. Kathryn served Cumberland as Municipal Court Judge for 26 years. Our heart felt sympathy goes out to her family. *Obituary on page 9*

Emergency Response Team called out to hostage situation near Rice Lake

The Barron County Sheriff's office reported that on Monday, April 5, 2021, at 2:54 p.m., they received a call of a domestic abuse incident taking place just east of the City of Rice Lake. The report was a possible hostage situation and shots were fired outside the residence. Neighbors did confirm that several gunshots were heard at the residence prior to our arrival.

Deputies from the Barron County Sheriff's Department along with the WI State Patrol, WI DNR, Rice Lake Police Depart-

ment and the Barron/Rusk Emergency Response Team responded to the scene.

Phone contact was attempted with no response so the armored vehicle was used to approach the house. A male subject was taken into custody, without further incident, and is being held in the Barron County Jail. The female in the residence was also located, interviewed and released.

This case remains under investigation and formal charges are expected tomorrow by the Barron County District Attorney's office.

BC Public Health issues statement on face coverings

Barron County Public Health strongly recommends that everyone continue to wear masks or face-coverings. This recommendation applies to everyone within Barron County including schools, daycares, businesses, government facilities, churches, healthcare, etc.

On March 31, the order that required masks be worn, was overturned by the Wisconsin Supreme Court. This means that the mask mandate is no longer in effect. It is important to remember that this decision was a legal decision about the way the orders were made. This is not a scientific decision or debate on the effectiveness of masks. Research shows that masks and face-coverings do help prevent the spread of COVID-19.

Public Health strongly recommends that all of our local schools, business, churches and other organizations keep their mask mandates in place.

It has been proven by many studies that practices like, social distancing, hand washing and mask wearing are effective in keeping our communities healthy and safe. We ask that everyone continue to do their part in keeping our family, friends and neighbors safe and mask up.

National Champion!

Dawson Johnson

Johnson Wins National Title

Cumberland freshman Dawson Johnson became a National Champion this past weekend by winning the 16U 113 pound weight class at the USA Wrestling Folkstyle Nationals in Iowa. Dawson won five matches

to claim the title in the 32 man field. Dawson continued his outstanding year of wrestling after also winning the Division 3 State Title at 106 pounds. Congratulations Dawson!!

Also we are proud of

Cumberland's other wrestlers for competing at Nationals this weekend. The other wrestlers were Braden Johnson and Caleb and Noah Hile. Good job and best of luck to all in the future.

Everyone Age 16 and Older Now Eligible for the COVID-19 Vaccine

The Wisconsin Department of Health Services (DHS) announces a major milestone in Wisconsin's COVID-19 vaccination program in that everyone ages 16 and older are now eligible for the vaccine.

After consistently ranking tops in the nation for vaccine administration and with a steady increase in vaccine supply, Wisconsin opens eligibility nearly a month earlier than expected.

"I know this past year hasn't been easy for anyone, and I want to express my appreciation to all Wisconsinites who are making sacrifices such as staying home, wearing a mask, and

keeping six feet from others," said DHS Secretary-designee Karen Timberlake. "These actions are backed by science. They help to slow the spread of COVID-19."

Cont'd on page 2

The Cumberland Fire Department was called to 184 Cty Hwy G Wednesday March 31 for a shed on fire. According to Cumberland Fire Chief Barry Kuenkel a shed which housed a wood burning stove caught fire and spread to another shed and a camper which were all lost in the fire. Firemen were able to save the house which sustained only minor damage. Firefighters were also called to 20th Avenue on Saturday April 3rd for a trailer that was on fire. The fire spread to a cornfield and ditch before being extinguished. Fire Chief Kuenkel stated a spark possibly from a rock or something could have started the fire.

Congrats Jack & Joyce!

COVID-19 Vaccine...

ID-19 and save lives. And today, we are excited to give everyone 16 and older the opportunity to continue protecting themselves and their loved ones from this virus. It will take patience, but we encourage everyone to get vaccinated.”

The demand for vaccine is still larger than the supply. However, opening up eligibility allows communities to continue their vaccination pace and schedule appointments. Vaccine providers can and should continue to prioritize anyone previously eligible such as public-facing essential workers and people with medical conditions.

There continue to be many options available for getting vaccinated, such as any of the following:

- DHS, federal, and locally run community-based vaccination clinics
- Pharmacies
- Health care providers
- Local and tribal health departments
- Employers

More information about each of these options is available on the COVID-19 where to get vaccinated page.

To find a local vaccine provider, visit the COVID-19 vaccine provider map or VaccineFinder(link is external). Individuals can also call the toll-free vaccine hotline at 844-684-1064 with questions or help finding or registering for a vaccination appointment. The hotline is also available in Hindi, Hmong, Somali, and Spanish.

Certain vaccine providers are using the COVID-19 Vaccine Registry. Anyone can register for an appointment using the COVID-19 vaccine registry. After you register, you are able to schedule an appointment.

Doug Gibson: A Less Known Cumberland Basketball Star

By Mark R. Fuller

When World War I ended in November of 1918, nearly five million men in uniform returned to civilian life. After an initial fight against a deadly influenza epidemic that was taking place in towns and cities across the nation, a return to normalcy began in late 1919, triggering an enormous growth in the appetite of Americans for recreational and athletic outlets.

The new decade ushered in an era of widespread barnstorming by strong independent basketball teams. They discovered that barnstorming could be a profitable enterprise, which caused dozens of teams to tour extensively.

Among the eventual participants on these teams was

Doug Gibson, a member of the 1920 Cumberland High School graduating class. “Gib” played basketball and football for the Beavers and served as the Secretary and Treasurer of the Senior Class. His quote in the Yearbook was, “I love to dance and shake my feet, but best of all I love to eat.” Gibson started at center for the Beavers, who finished 4 and 6 on the year.

Following graduation, Gibson would go on to Madison, where he would continue to play basketball for the Badgers. I tried to find articles on his contributions, but could merely find team records. They included a 12 and 3 record in 1922-1923 and an 11 and 5 mark in 1923-1924.

The lone article I could find on his further basketball exploits came in a Beaver Booster article in December of 1925. At this point, he had apparently concluded his eligibility in Madison and was a member of a barnstorming team based out of Madison, made up of other former Badgers.

The article in the School newspaper was reprinted from the Wisconsin State Journal and told of Gibson’s

achievements while playing for the Coliseum Athletic Club against the Guaranteed Trust Team from Cincinnati, Ohio. Calling Gibson, “A former University of Wisconsin star,” the article continued saying, “He is being hailed as one of the most sensational basketball players of several seasons and the local team compliments itself on having Gibson in its ranks.”

The article came after Gibson had scored 17 points in a contest against the Cincinnati based team. The State Journal continued by saying, “The lanky center from Wisconsin was all over the court, flipping in “set-ups” and then coming back by netting amazing shots from far out in the court and from the side at a difficult angle. His floor work was dazzling to the Cincinnatians, who were unable to stop him at any time of the game.”

The article concluded by saying, “Gibson was ably supported by a quintet composed of former University stars, who showed a high powered brand of basketball.” It was Cumberland’s Doug Gibson, however, who was the star of the night.

Trego Man Charged with Attempted Intentional Homicide

Shaun P. Higgins, 50, of Trego, has been charged with attempting first degree intentional homicide, second degree recklessly endangering safety, felony criminal damage to property, and felony criminal damage to property.

On Saturday, February 20, 2021, at 10:06 P.M., Washburn County Dispatch received a call from Wit-

ness 1. Witness 1 advised she was calling from a bar in the Township of Casey, Washburn County. Witness 1 reported there was an intoxicated male driving a side-by-side who had hit a vehicle.

Washburn County Deputies were engaged in another call, so mutual aid officers Dakota Dorn of the Spooner Police Department and Jordan Feidt of the Shell Lake Police Department responded to the scene. While officers were en route, Witness 1 called back at 10:12 P.M. and advised the male suspect had also hit a person, later identified as Victim 1, with the side-by-side. Dispatch advised the suspect had fled the scene.

Officer Dorn arrived on scene at 10:16 P.M. and Officer Feidt arrived on scene at 10:25 P.M.. Upon arrival, Officer Dorn spoke with Victim 2. Victim 2 advised he was the DJ at the bar. Victim 2 advised his vehicle, a 2004 Jeep Grand Cherokee, had been hit by the side-by-side UTV. Victim 2 stated he had not been hit. He directed Officer Dorn to speak with Victim 3.

Victim 3 advised he was fine, but his vehicle, a GMC was damaged. Victim 3 advised he had not been struck by the UTV and took Officer Dorn to speak with Victim 1, who had been struck by the UTV. Victim 1 declined medical assistance. Victim 1 advised the driver of the UTV was Shaun Higgins. Victim 1 stated Higgins had fled the scene and driven across the road to the farm.

Deputy Peake arrived at the bar at 10:29 P.M. and he and Officer Feidt went to the farm across the road to look for the UTV. Officers were unable to locate

Higgins and returned to the bar at 10:48 P.M. Deputy Peake spoke with Victim 1 who advised Higgins had run him over twice with the UTV and had yelled out “I’m going to kill you” before he ran Victim 1 over.

At this time Deputy Peake was called away for a rollover accident and was unable to return to the scene, so he asked Officer Dorn to hand out statement forms and take photos.

On February 21, 2021, Deputy Peake responded to Shaun Higgins’ residence. Deputy Peake spoke with Higgins and asked him what he remembers from the night of February 20th. Higgins stated he did not remember much, but that he remembered being at the bar and that he drove his side-by-side there. Higgins stated he had one drink and then left. Higgins asked Deputy Peake why was asking about that. Deputy Peake stated he was investigating that Higgins had possibly hit some vehicles and ran someone over. Higgins claimed he did not remember that. Deputy Peake asked Higgins if he could see the side-by-side. Higgins agreed and showed Deputy Peake the side-by-side UTV. Higgins pointed to a fresh white paint transfer on the driver side bumper and broken driver side rear tail light. Higgins told Deputy Peake that this damage was fresh and he must have got them last night when he hit the vehicle. Higgins stated he was “pretty sure” he did not run anyone over. Higgins denied remembering anything else about the night.

On February 23, 2021, Deputy Peake met with Victim 1 and asked him to give a detailed account of what

Northwoods Notebook: A cold, dark winter ends - mercifully

By Larry Werner

The health experts warned us this was going to be a dark winter. And it was.

They told us the pandemic would take many of us, sicken many more, and that we should isolate in our homes, away from family and friends. The short days and long nights came and went without visits to restaurants, without plays or concerts, with Friday fish we picked up curbside and took home, and occasional lunches in garages with doors open to disperse any killer virus that might be floating in air.

Except for the two weeks of polar plunge, Ann and I continued the daily hour-long walks that we committed to a year ago, when we rushed home from Florida after a presidential declaration that something called COVID would change our lives and our routines. We walked for exercise and to pass the time we wished away because we wanted a return to the normal a virus had taken from us. When winter came, we bundled up against the cold and kept up the walks that

were part of our daily routine in spring and summer.

We watched the geese flying south in V-formation, watched ice form on our lake, turned the lights on earlier each week as days got shorter and colder. We watched the snow pile up outside. And unlike other winters, we stayed here rather than make the three-day drive to a warmer place, heeding warnings that travel could expose us to the invisible killer.

Our Christmas gathering and visits with friends and family were virtual through the magic of something called Zoom. Unlike in summer and fall, it became too cold for outdoor visits, even too cold for garage visits. Like our bear friends, we hibernated, quarantined and longed for being with others, laughing and talking with others, hugging others, especially the grandkids who have grown in the year we spent in “COVID prison,” as Ron Ruppel called it in a recent conversation.

Ron said the vaccine freed him from that prison, as the

vaccine has freed the rest of us, and made it possible to have friends in and to enter their homes, to have our lattes inside the coffee shop for the first time in over a year. A couple weeks ago, two weeks past my vaccination, I visited the home of my son and hugged his two children.

Such a small thing, a hug, but such a big thing when you haven’t done it since before that drive to Florida more than a year ago. As I got to his front door on my way out of his house, my son motioned me to come close and gave his old man the sweetest squeeze I’ve ever gotten.

The days are longer, the air warmer, the lake ice gone, the birds returning from places south and warm. We endured the darkest winter of our lives and, in a spring made brighter by vaccines and a fading pandemic, we look forward to an even brighter summer of warmth, togetherness and, yes, hugs.

Larry Werner’s email is lhwner47@gmail.com.

The Cumberland Fire Department was called to 2545 8th Street late Monday morning for a camper/small grass fire. According to Fire Chief Barry Kuenkel, two young men were attempting to burn a camper to use the frame when it got away from them. The fire was quickly extinguished.

Eye Facts from Jacobson Advanced Eye Care

The Itch, the Blur & the Confusion

It's spring. Your eyes itch. Maybe kind of blurry. Sounds like allergies to you. But, is it? Are you sure? When is it *not* an allergy?

- When the membrane covering the white part of the eye and the inner eyelid lining become red and inflamed, you may have pink eye. This is an infection caused, in most cases, by a virus that may last up to a few weeks; less frequently, it is bacterial.
- It's possible to mistake an allergic reaction for dry eye, a common condition. Itching is less prominent in dry eye. Instead, sufferers may experience gritty, stinging, burning, dryness, irritation, light sensitivity and even blurry vision.
- Respiratory allergies and colds look and feel a lot alike. Both cause sneezing, a runny or stuffy nose, and tiredness. But unlike allergies, colds are caused by a virus, so you can spread them to other people.

There are several other conditions that can be confused with allergies all of which could need varying treatment.

Dr. Jennifer

While red eyes may not be too much of a concern, when accompanied by symptoms such as abnormal discharge, pain, and decreased or blurry vision, it is important to check with Dr. Jennifer.

Getting a quick diagnosis and treatment are the keys when you have irritated eyes. No matter what's causing the problem, Dr. Jennifer can help you find the right treatment and the relief you need.

Opinion

By Craig Bucher

It is Tuesday morning and I am just getting up. I didn’t write a column last week and I just binged on sports all weekend. We had a great Easter dinner at Paul and Sarah’s home. It wast the first time we were together in just about a year. It was great to see all of them. Family means a great deal and after the enforced absence due to the virus it means even more. “He is risen! He is risen indeed.” These words make the weekend complete.

It is great to see the baseball season begin. I watched the Twins beat the Brewers two games to one and even though I am a Twins fan - regardless of the winner, it was great just to see baseball.

The basketball Final Four was fun to watch. Gonzaga could not quite pull it off, I think it is because of the weakness of their season long schedule, they just don’t play the tough teams night in night out. It catches up to them every year. The BIG 10 doesn’t have any excuses. They just didn’t play very well. It looked as though they were reading their own press clippings.

Finally you just can’t beat the weekend weather. Sandals and shorts, the first week in April. It just doesn’t get any better.

SEE YOU NEXT WEEK!

LETTERS Editor

Climate Crisis

To the Editor:

I see my letter of 2/17/21 got at least two responses trying to defend the false narrative of “climate crisis.” However, they offered no scientific proof that human activities are having significant impact on climate change. Yes, global temperature records show a rise of a couple degrees since about 1970, but half of that rise has been attributed to the “heat island effect.” Temperature recording stations located in developing urban areas exhibit temperature increases over time that are greater than the surrounding rural areas. Combine that with a drastically decreased number of rural recording stations while the number of urban stations remained almost unchanged over time gives the illusion of a rapidly climbing global temperature. Actual temperature rise since 1970 has been calculated to be one-tenth of a degree Celsius per decade or a whole 1/2 degree. Well within historic temperature fluctuations.

Most “climate models” use the 1950 to 1980 time period for base line temperatures because at that time the planet was in a cooling trend. I recall at that time (yes I am that old) scientists were predicting the coming of a new ice age. During that period, we were at the bottom of a global cooling cycle. When you are at the bottom, there is only one way to go-up.

Stronger and more fre-

quent storms? The NOAA (National Oceanic and Atmospheric Administration) historic records show no meaningful variations in the number of severity storms. A warming atmosphere will actually lessen the severity of storms. The only thing increasing is the dollar value of property being destroyed.

Two 100 year floods in ten years? Just how do we know what constitutes a 100 year flood? Accurate rainfall records do not go back far enough to be able to make that statement with any certainty.

The polar vortex that hit texas was not “unprecedented” (the most over-used word lately). Texas has frozen before and will again. This time however the power grid was not up to the job.

A previous writer listed a scary sounding statistic “fossil based CO2 (carbon dioxide) has increased 250 times since the ice age.” Ten thousand years ago, the amount of fossil fuels burned was almost zero. When you multiply almost zero by 250 you still have a very small amount. Those same Greenland ice cap borings the previous writer talks about also indicate that CO2 levels rise AFTER temperature rise. How can this be? Because as ocean temperatures rise they give off some of their CO2. I discussed the minute amount of atmospheric CO2 and satellites in my previous letter so will not

Inside Wisconsin

Power of undergraduate research being felt in Wisconsin economy

By Tom Still

MADISON, Wis. – In April 2023, Wisconsin will host a national gathering of about 4,000 collegiate researchers who will descend on Eau Claire to present their ideas, to network with peers and mentors, and to meet with corporate and graduate school recruiters.

It’s a once-a-year gathering that illustrates just how far undergraduate research has come in Wisconsin, and what it can mean to the overall economy.

The selection of UW-Eau Claire by the National Conference of Undergraduate Research is not only a chance to highlight that picturesque region in northwest Wisconsin, but to underscore the changing nature of research taking place at “non-doctoral” campuses – and what it means to local economies in Wisconsin and beyond.

Many people are familiar with the size and scope of research at public doctoral campuses such as the UW-Madison and UW-Milwaukee, as well as private universities such as the Medical College of Wisconsin, Marquette, the Milwaukee School of Engineering and Concordia.

Less known is that faculty, academic staff and growing cohorts of students are conducting research on regional

campuses where doctoral degrees aren’t offered, but opportunities to conduct meaningful work are increasingly engrained.

That is increasingly true in Wisconsin, where a combination of factors has prompted a surge in undergraduate research on UW System comprehensive campuses.

In part it’s due to energetic chancellors such as UW-Eau Claire’s Jim Schmidt, who has forged industry partnerships where they make sense for students and the community. For example, UW-Eau Claire’s research partnership with the Mayo Clinic is opening doors for students and practitioners alike.

Another factor is the rise of the WiSys Technology Foundation, which is an offspring of the Wisconsin Alumni Research Foundation. WiSys has been led since 2014 by Arjun Sanga, who brought a mix on intellectual property and technology commercialization expertise to the organization.

Created in 1925, WARF handles patent and license issues for the UW-Madison, returning money to the campus research cycle and often making it possible for young companies to get a start. WiSys is doing much the same for four-year UW campuses out-

side Madison and Milwaukee while engaging students in research and entrepreneurship.

Recent figures illustrate the progress of WiSys, which has seen steady increases in the number of ideas submitted by researchers; invention disclosures from those same researchers; patent applications; patents awarded; and commercial licenses or access granted.

Just as important is WiSys outreach into communities that surround campuses where the non-profit organization is active. In Eau Claire, the first “VentureHome” program is connecting campus researchers, inventors and entrepreneurs with community resources and companies that can turn ideas into startup and products. Other VentureHome programs are in various planning stages in Platteville, Superior, Green Bay, Oshkosh and Kenosha.

The progress of the UW System’s non-doctoral campuses was recognized in 2020 when an independent survey ranked those 11 campuses second among the nation’s smaller research schools. The “innovation productivity” index produced by the George W. Bush Institute scored the WiSys collective behind only Brigham Young University and ahead of campuses

such as Northern Illinois, Duquesne and Creighton.

The growing cooperation demonstrated on the WiSys campuses is also evident in the rest of the UW System, where interim president and former governor Tommy Thompson is encouraging more connections and information sharing. That was evident in a recent Wisconsin Technology Council webinar featuring UW-Madison Chancellor Rebecca Blank and UW-Milwaukee Chancellor Mark Mone.

A joint effort by WARF, WiSys, the UW-Milwaukee Research Foundation and the UW System will stress the importance of technology “transfer” to the economy in coming years, focusing on research strengths and how they match up with economic and societal problems.

Undergraduate researchers will help fill tomorrow’s jobs and solve today’s problems. On campuses large and small, Wisconsin is elevating that resource for others to see.

Still is president of the Wisconsin Technology Council. He can be reached at tstill@wisconsintechnologycouncil.com.

A Look Back

10 Years Ago
April 13, 2011

While many teachers work magic in the classroom, few have an opportunity to bring it out into the community on a regularly basis. Dan Hopkins, who has been the band director at Cumberland High School for 15 years, is one of these teachers. Hopkins’ dedication to his students is reflected in their constant success and improvement. Hopkins was nominated for a National Citizenship Education Award from the VFW. The award recognizes teachers who promote citizenship in the classroom and school community.

CHS students completed the forensic season by bringing home top honors from the Wisconsin High School Forensic Association State Speech Festival. Earning awards for perfect scores of 25 were: Briana Bridger, Jared Lee, Heather Thoe, Heather Paulson, Brooke Johnson, Rachel Lexen, Cassie Pherson, Kevin Knutson, Kristina Hanson, Angela Strickland and Sean Sullivan.

First Lutheran Church of Cumberland has received a \$1,000 grant from Aid Association for Lutherans to help the congregation celebrate its 125th anniversary. The Aid Association for Lutherans awarded the grant through its Milestone Program, designed to help congregational members increase awareness and appreciation of their heritage, and assist them in celebrating their anniversary.

April 12, 1951

Volunteer firemen responded to an alarm at 11:25 pm, on Sunday to a chimney fire at the Gordon Greener farm about 2 1/2 miles southwest of Cumberland on County Hwy G. The blaze was confined to the chimney and damage consisted only of cracked plaster in the interior of the house. No one was injured

80 Years Ago
April 10, 1941

The Cumberland speech team won an overwhelming victory over the four contesting schools at Hayward in the Namakagon League contest. On the basis of five points for first place, three for second, and one for third, Cumberland won 28 points. First place winners from Cumberland were: Grace Maxey, Helen Young, Steven Cotone, and Wenzel Raith. First place winners will participate in the district forensic contest at Park Falls next weekend.

The Cumberland Public Library was honored recently with a special citation for its work and library publicity. It was one of four libraries in the state to receive mention in the Wisconsin Library Bulletin for work done in 1940.

Complaints

Jellissa A. Reynolds, 32, of Chetek, has been charged with possession of marijuana, and possession of drug paraphernalia. Her court date is scheduled for October 2, 2021.

Gabrielle D. Becker, 17, of Barron, has been charged with habitual truancy. Her court date is scheduled for May 4, 2021.

Anthony J. Mulvaney, 17, of Cameron, has been charged with habitual truancy. His court date is scheduled for April 6, 2021.

Corey C. Hayden, 17, of Rice Lake, has been charged with underage drinking. His court date is scheduled for May 21, 2021.

James E. King, 37, of Saron, has been charged with disorderly conduct and domestic abuse. His court appearance was scheduled for March 29, 2021.

Tanner A. Hard, 20, of Bruce, has been charged with possession of drug paraphernalia, and possession of marijuana. His court date is scheduled for April 14, 2021.

Criminal Complaints

Timothy J. Guthrie, 39, of Cumberland, has been charged with disorderly conduct. His initial appearance is scheduled for April 14, 2021.

Alexus M. Olson, 21, of Barron, has been charged with maintaining a drug trafficking place, and party to a crime. Her initial appearance was scheduled for March 24, 2021.

Trina L. Hendrickson, 38, of Barron, has been charged with maintaining a drug trafficking place, possession of THC, and possession of drug paraphernalia. Her initial appearance is scheduled for April 14, 2021.

Jeffrey R. Butler, 42, of Mikana, has been charged with possess with intent-amphetamine, party to a crime, possession of THC, and possession of drug paraphernalia. His preliminary hearing was scheduled for March 31, 2021.

Susie L. Merrill, 24, of Cumberland, has been charged with possess with intent-amphetamine, party to a crime, and possession of THC. Her preliminary hearing was scheduled for March 31, 2021.

Kurt T. Kittelson, 33, of Rice Lake, has been charged with manufacture/deliver amphetamine, and possess with intent-amphetamine. His arraignment is scheduled for June 11, 2021.

Benjamin T. Saumier, 43, of Dallas, has been charged with terrorist threats-public panic or fear, and disorderly conduct. His arraignment is scheduled for June 4, 2021.

Riley D. Coon, 21, of New Auburn, has been charged with possession of child pornography. His preliminary hearing is scheduled for April 9, 2021.

Michelle L. Magnuson, 52, of Rice Lake, has been charged with possession of methamphetamine. Her initial appearance is scheduled for April 21, 2021.

Nicholas Trinidad, 32, of Eau Claire, has been charged with possession of methamphetamine. His initial appearance is scheduled for April 21, 2021.

Holly A. Norbeck, 28, of St. Paul, MN., has been charged with throwing/discharging bodily fluid at public safety worker or prosecutor, battery or threat to judge, prosecutor, or law enforcement officer, possession of methamphetamine, possession of THC, possession of drug paraphernalia, and disorderly conduct. Her preliminary hearing is

scheduled for April 1, 2021.

Thomas A. Drone, 25, of Cumberland, has been charged with possession of methamphetamine. His initial appearance is scheduled for April 21, 2021.

Dallas A. Moore, 62, of Rice Lake, has been charged with possession of methamphetamine. His preliminary hearing was scheduled for April 1, 2021.

Benjamin T. Saumier, 43, of Dallas, has been charged with terrorist threats-public panic or fear, and disorderly conduct.

Deputy Schesel, with the Barron County Sheriff's Department, reports that on March 28, 2021, at approximately 5:58 pm, she was dispatched to the area of Hampton Avenue in Dallas on multiple reports of a disorderly male subject who had threatened multiple people.

Upon her arrival, Deputy Schesel, along with Sergeant Graf, with the same department, made contact with two subjects. Both subjects advised that Saumier had been yelling obscene and threatening statements at the two of them for a prolonged period of time before officers arrived. It was later estimated that Saumier had been yelling such threats and obscenities for over 45 minutes outside in the neighborhood. The female subject stated that Saumier had repeatedly stated that he hoped she would die and threatened to kill her multiple times. The male subject reportedly stated that Saumier had threatened him multiple times as well, including Saumier yelling at him that he wanted to beat him.

Deputy Schesel reports she also made contact with another subject. This subject was one of the multiple callers who contacted law enforcement about Saumier's aggressive and threatening behavior from that evening. The subject stated that he had been walking with his wife down the street when Saumier came out to them on the street and began yelling at them about his neighbors, the female and male subject. When the subject responded to Saumier's statements, Saumier reportedly got into the subject's face and started yelling at him that he was going to kick his butt. The subject stated that he told Saumier to get out of his face, at which point Saumier reportedly stated that he was going to go "get something" for the subject and walked back towards his house. The subject stated he became concerned that Saumier was retrieving a firearm or some other type of weapon and thereafter contacted law enforcement.

If convicted for terrorist threats-public panic or fear, Saumier may be fined not more than \$10,000 or imprisoned not more than three years and six months or both. For disorderly conduct, he may be fined not more than \$1,000 or imprisoned not more than 90 days or both. His arraignment is scheduled for June 4, 2021.

Trego Man...

happened the night of February 20th. Victim 1 stated he had been drinking at the bar with Witness 2 when Higgins walked into the bar. He stated he knows Higgins because they have a mutual friend and they are at the friend's farm sometimes at the same time. Victim 1 stated Higgins appeared to be intoxicated. Victim 1 stated Higgins walked over to him, leaned against him, and told Victim 1 they should get Witness 2 drunk so they could "have her." Victim 1 stated he did not like this derogatory statement about Witness 2 and told Higgins to never say that again. Victim 1 stated he told Higgins to leave them alone and get out of there. Victim 1 stated Higgins just laughed. Victim 1 stated he pushed Higgins away and Higgins fell down. Victim 1 stated Higgins started yelling at everyone. Higgins was told to leave the bar but refused. Victim 1 stated Higgins wanted to fight him, but Victim 3 restrained Higgins. Victim 1 sated Higgins was escorted out of the bar by a few people, including Victim 3.

Victim 1 stated he thought Higgins had left, but a few minutes later he looked out the window and observed Higgins in the UTV with full lights on, approaching Victim 3 as if he was going to strike him with the vehicle. Victim 1 stated when he got outside he saw Higgins sitting in the UTV "revving" the engine. Victim 1 stated Victim 3 was standing in front of the UTV. Victim 1 stated he approached Higgins to try to get him stop "revving" the engine. Victim 1 stated he attempted to get the keys out of the UTV, but he could not. Victim 1 stated he pushed Higgins to attempt to get him out of the driver seat so he could not drive. Victim 1 stated at this time he slipped on the ice and fell down. Victim 1 stated Higgins backed the UTV up and yelled, "I'm gonna kill you!" Higgins then accelerated forward and ran Victim 1 over with the UTV.

Victim 1 stated as he was lying there on the ground Higgins turned the UTV around again and yelled "I'm gonna kill you!" Victim 1 stated Higgins then ran him over Victim 1 with the UTV a second time. Victim 1 stated he was not sure what happened after that and he laid on the ground for some time.

Victim 1 advised he had gone to the hospital the next day, February 21, 2021. Victim 1 advised he had suffered multiple fractured ribs. Victim 1 showed Deputy Peake significant bruising on his chest, torso, and right leg.

After Deputy Peake left Victim 1's residence, he responded to Higgins' residence. While he was en route there, he was advised Higgins had called dispatch and wanted to speak with Deputy Peake. Upon arrival, Deputy Peake asked Higgins what he wanted to talk about. Higgins informed Peake he did remember hitting one vehicle, but was "pretty sure" he did not run anyone over. Higgins stated he must have hit something white because of the fresh white paint that was on his left bumper.

On March 8, 2021, Investigator Hartl conducted a follow up interview with Witness 2 who had previously provided a written statement about the incidents on February 20. Witness 2 stated on the night of February 20, 2021, she had been at the bar with Victim 1. She stated she saw Shaun Higgins at the bar and initially he seemed fine. She stated Higgins approached them later and he appeared to be more intoxicated. Witness 2 stated she observed Higgins had a couple shots and got a couple more shots and came and sat next to her. Witness 2 stated Higgins made a comment Victim 1 did not like and Victim 1 had pushed Higgins to get him away. Witness 2 stated Higgins was escorted outside.

Witness 2 stated Victim 1 had gone outside a little later and she had gone outside a short time after him. Witness 2 stated the UTV was facing the front of the bar and Victim 3 was standing between the bar and the UTV. Witness 2 stated eventually the UTV had come towards the building and was parked at an angle where Victim 1 confronted Higgins. Witness 2 stated Victim 1 was trying to grab Higgins to prevent him from driving anymore. Witness 2 stated at this time Victim 1 slipped. Witness 2 stated Victim 1 was half way to the ground when Higgins ran him over with the UTV. Witness 2 stated after Higgins had run Victim 1 over the first time she heard Higgins screaming "I'm going to kill you, I'm going to kill you." Witness 2 stated Higgins then ran Victim 1 over again with the UTV. Witness 2 stated Higgins then spun the UTV around a couple times and drove off.

On March 10, 2021, Investigator Hartl conducted a follow up interview with Victim 3 who had previously provided a written statement about the incidents of February 20th. Victim 3 stated he had arrived at the bar at approximately 8:00 P.M. on February 20. He stated he was sitting at the corner of the bar, drinking a beer, when Victim 1 and Witness 2 arrived approximately 15-20 minutes later. Victim 3 stated approxi-

mately 15 minutes after that, Higgins arrived at the bar. Victim 3 stated he had met Higgins one time before. Victim 3 stated Higgins was acting strangely. Victim 3 stated Higgins had a framed photo tucked inside his shirt and Higgins was going from person to person showing them the photo.

Victim 3 stated Higgins was "aggressively drinking" straight liquor. Victim 3 stated he saw Higgins speaking with Witness 2 and Victim 1. Victim 3 stated the next thing he knew he saw someone going "flying by him" approximately six or seven feet backwards. Victim 3 described Higgins as looking as if he was "ready to charge." Victim 3 said he restrained Higgins because Higgins wanted to fight Victim 1. Victim 3 escorted Higgins outside.

Victim 3 stated that once outside, Higgins' demeanor changed and he was not crazy mad and asked Victim 3 if he had said something to offend someone. Victim 3 stated at that point he did not know what was said, but he indicated to Higgins that people were upset. Victim 3 went back inside.

Victim 3 stated approximately 10 minutes later he noticed people were getting up to look out the front windows and there was a UTV with bright lights focused on the door and shining into the building Victim 3 indicated when he got halfway out the UTV driven by Higgins rapidly approached him and slammed on the brakes, skidding up to his kneecaps. Victim 3 stated the UTV came within one foot of him. Victim 3 indicated that he had put his hands up in the air as the UTV approached. Victim 3 stated, "He sure could have taken me out." Victim 3 stated he went to the side of the UTV and told Higgins he needed to go home. Victim 3 stated at this point Victim 1 came out of the bar and was close to the entrance. Victim 3 indicated Higgins saw Victim 1 and yelled, "I'm going to kill you [Victim 1]" and accelerated and hit him flat and drove over him.

Victim 3 described that the UTV then swirled back and backed over Victim 1, did a "donut," and bounced off of Victim 3's vehicle, ran into Victim 2's vehicle and hit Victim 1 again. Victim 3 indicated Victim 1 was just trying to crawl away and Victim 3 had moved closer to try and throw Higgins out of the seat, but that it happened so quickly. Victim 3 stated Higgins then took off.

Victim 3 advised his GMC Terrain had been damaged by Higgins' UTV. Victim 3 stated his GMC had been taken to Severson Precision Auto for repairs. Investigator Hartl followed up with Severson Precision Auto, who advised the cost of repairs to Victim 3's vehicle was \$2,837.69.

Victim 2's vehicle, which is a 2004 Jeep Grand Cherokee, had a broken right rear tail light, with lower panel damage by the rear tire. Victim 2 advised Deputy Dorn this damage was caused by the side-by-side striking it. Investigator Hartl followed up with C & J Body Shop, where the vehicle had been taken for repairs. C & J Body Shop provided an estimate of \$2,523.77 to repair the Jeep.

In convicted for attempt first degree intentional homicide, Higgins may be sentenced to a term of imprisonment not to exceed 60 years. For second degree recklessly endangering safety, he may be fined not more than \$25,000 or imprisoned not more than 10 years or both. For felony criminal damage to property he may be fined not more than \$10,000 or imprisoned not more than three years and six months or both. For felony criminal damage to property he may be fined not more than \$10,000, or imprisoned not more than three years and six months or both. His adjourned initial appearance is scheduled for April 12, 2021.

Beaver Baseball Team Readies for Season

After sitting out last year due to the Covid virus, the Cumberland Baseball Team is eager to begin its schedule for the 2021 season. After undergoing a series of WIAA contact day practices, the team is now waiting for the official opening practice date of April 19, in preparation for first game on April 27 against the Bloomer Blackhawks.

Joe Waite will return as the Head Coach for his third season and will be assisted by David Olson and Nick Johnson. I'm lucky to have these two assistants," said Waite. Waite was an assistant at the school for 23 year, before taking the Head Coach position at Prairie Farm for four seasons. In his first season for the Beavers, he helped guide the team to the Sectional Championship game, where they lost to Boyceville.

This years squad features 10 seniors on a roster of 29 players. "This senior class is potentially one of the most athletic classes we've ever had in Cumberland and the sophomore class may very well be the second most athletic group we've ever had. These kids know how to win as they've showed in their other sports. I'm not guaranteeing the gold trophy in Fox Valley at the end of June, but we are pretty good," said Coach Waite.

It begins in the HON Conference, where the coaches have picked Cumberland as the team to beat followed by Bloomer, Hayward, Saint Croix Falls, Northwestern, and Spooner.

"On offense, we have exceptional team speed. We are led by Jack Martens, who led the State with 41 stolen bases as a sophomore, while our leadoff hitter, Dylan Weber, can flat out fly as can Gavin Jarchow. As a team, we should hit the ball."

Among his strong offensive weapons are DaShaun Ames, Travis Runberg, and Maddux Allen. "Maddux can handle a bat and will bat high in the lineup, while Travis is going to be one of the best catchers in the state, and DaShaun is a great hitter and an exceptional defensive first baseman," said Coach Waite. There will be strong competition for the additional positions. The Beavers Head Coach added, "Josh Martens knows how to handle a bat and has great anticipation as an outfielder, Lucas Anderson can really hit the ball, while Sophomore David Olson has the potential to be an outstanding high school baseball player as a five tool player. Dylan Wackerfuss, meanwhile, hit .315 as a sophomore."

Waite also expects a strong pitching staff. "We have a lot of kids who can throw strikes and will keep us in games. Our varsity pitchers are expected to be Maddux Allen, Travis Runberg, Josh Martens, Dylan Weber, Lucas Anderson, Isaiah Patrin, Wackerfuss, Ames and Olson."

Others that are in the mix for varsity playing time include Ed Chafer, Gavin Jarchow, Blake Siebert, Braxdyn Engstrand, Monty Peterson, Walker Wissbroecker, and Colton Ritchie.

Coach Waite is currently recovering from surgery, but plans on being in the coaches box when the Beavers open their season against a strong Bloomer squad at Islander Park. "The boys keep me going, and I know I'll recover faster just by looking forward to the season," he concluded.

The adjusted season will run through June with Tournament play scheduled to begin June 11 and the WIAA Sectional scheduled for Islander Park on June 22.

Ania Hyatt Contributing on Northern Michigan Volleyball Team

Cumberland's Ania Hyatt has been a key contributor on the Northern Michigan NCAA D2 Volleyball team, which has a 12 and 2 record as they prepare to enter the Great Lakes Intercollegiate Athletic Conference Tournament at Saginaw Valley State University this Friday. Northern Michigan finished one game ahead of Grand Valley State in the regular season, taking the regular season title.

Hyatt is a freshman at the University and has appeared in all 14 games for the Wildcats. On the season, Hyatt has 33 blocks, which is second on the team, along with 70 kills. The team is currently ranked 19th in the NCAA D2 polls and has appeared in 16 NCAA Tournaments, winning two National Titles. She is the daughter of Kirk and Jennifer Hyatt.

Off To Virtual State Tournament!

The Cumberland girls Dance Team Left to right: Dakota Morfoot, Zoe Stephanie, Kylah Gosda, Megan Muench, Ingrid Delgado, Alleah Anderson, Julia Armstrong, Emma McNulty, and Allely Trevino. Good luck girls

Cumberland Girls Dance Team participates in Virtual State Tournament

On Saturday, March 20th, the Cumberland High School Dance Team competed in a virtual regional competition. This years competition was very different than most years. It was mandatory for every team to wear masks, gloves, and maintain 6' of social distancing. Teams are familiar with doing partner/group tricks but had to adapt.

Cumberland's team competed with their hip hop and pom routines and advanced to the State Finals in both routines. The girls will be judged virtually on April 25th.

The Dance Team would like to thank our school and community for the support and dedication.

Tim Walsh received the Chamber of Commerce Citizen Athlete Award presented by Chamber President Steve Wickre.

Tom Walsh received the Outstanding Boy Athlete Award presented by Coach Joe Hegenbarth.

Cumberland High School senior letter winners who most closely fit guest speaker John Schell's definition of an athlete, were honored at the 25th Annual CHS Athletic Banquet on Saturday.

Tim Walsh received the Outstanding Senior Athlete Citizenship Award, sponsored by the Cumberland Chamber of Commerce and presented by its president, Steve Wickre.

"Walsh's desire and perseverance in overcoming an injury helped win him the award," Wickre said.

Tom Walsh was selected the Outstanding Senior Boy Athlete. Coach Joe Hegenbarth said Walsh earned the award not only on the basis of his athletic skills, but also on his classroom performance.

Tami Strey earned top honors as the Outstanding Senior Girl Athlete. During her career at Cumberland, she displayed all the virtues described by Schell, Coach Bruce Gonzales said in the presenting award.

Schell, a one-time Cumberland star athlete and former captain of the University of Wisconsin basketball team, called sports a learning experience.

"Athletics teaches you how to cope with success and failure," Schell said. "You learn to pick yourself up off the floor after failure," he said.

When things are going right, people don't ordinarily stop to realize it. Athletics make you stop and understand it," he said.

The three easiest things in the world to do when something goes wrong are to complain, blame others or quit, Schell said.

An athlete learns that hard work pays off somewhere down the line, Schell said, and comes to appreciate those who have pride in their work.

In order to be an athlete, a youngster must have parents that take interest in and get involved with their children. Schell advised parents that there was an important difference between encouragement and pushing a youngster into an activity. The game has to be fun, he said. Schell said he was

Tami Strey received the Outstanding Girl Athlete Award presented by Coach Bruce Gonzales.

lucky that at an early age he had a coach that made sports enjoyable.

To Schell, high school sports were bigger, more important than playing the Big 10. "There is a closeness in high school," Schell said, "that is missing in college and pros."

Attitude and environment are two important aspects in the making of an athlete, Schell said. Athletes will take whatever talent they have to make the sacrifices, put in the necessary time and hard work and have fun doing it.

He cautioned students to surround themselves with people who have interests similar to their own. Most valuable players in individual sports were also honored.

Tami Strey took the girls' sports MVP in both volleyball and basketball.

Bob Ranallo was named MVP in wrestling, and Craig Peterson got that award in basketball.

In football, Bruce Torkelson received two honors.

Schell commented that although football and basketball received the greatest attention, other sports are just as important. He also singled out cheerleaders and pom pom squads for recognition.

Because of golf and track, teams are just beginning their seasons, and they have not yet determined their MVP's.

Sports Look Back April 10, 1991

The Cumberland Boys and Girls track teams both finished second out of four teams in opening competition held at Webster last Thursday.

Girls

The girls placed second behind Shell Lake, who took first with 80.33 points. The Beavers finished with 66.33 points while Webster had 59 points and Clayton had 33.33.

"I was pleased with the girls opening. We missed Laila Dierks and Jenny Labbe and still did well," said Nancy Scharhag.

Leading the way was Jana Greener who won both the 200 meter (29.84) and 100 meter (14.16) dashes. She missed all of last year with a knee injury. Teresa Hanson in the discus, (93'7), Nicole Hedke in the long jump (14'8.5), and the 400 meter dash relay, (57.42) team of Hedke, Greener, Kris Skinner, and Nikki Ostrum also captured first places.

Missy Sparish picked up a second in the shot put (29.9) while Jody Elmborg added a third. "The weights should be strong for us all Spring," said Scharhag.

Other second place finishes came from Tracy Lloyd in the 300 meter hurdles (60.19), Nicole Hedke in the triple jump (29'5), and the 800 meter relay team (2:06.25), Skinner, Ostrum, Greener, and D. Hegenbarth made up the team.

Third places came from Nikki Ostrum in the 100 hurdles, Dawn Richey in the 300 hurdles, and the 1600 meter relay team of Hegenbarth, Hegenbarth, Braun, and Lloyd.

Fourth places went to Elisa Johnson in the discus, Hedke in the 100 meter dash and Dawn Braun in the 300 meter hurdles.

Final points came from fifth place finishes by Elmborg, Elisa Johnson, Aimee Wickland, and Dawn Richey.

Twenty girls participated in the meet for Cumberland.

Boys

The boys team finished second to Webster by a single point while Clayton was third and Shell Lake fourth.

Webster had 96.5 points while the Beavers finished with 95.5 points, Clayton had 37, and Shell Lake had 19.

Jeb Burke was the "main man" as he grabbed four first places. Burke took the 200 meter dash (26.023), the 100 meter dash (12.23), the 400 meter dash (55.93) and the long jump (18'2).

The other first place Beaver finishes came from Pat Schmitz in the hurdles (17.89), Darren Johnson in the shot put (46'8.5), Ryan Steines in the 3200 meter run (11:17.16), Jason Horstman in the high jump, and D. Hegenbarth

An Outdoorsman's Journal

by Mark Walters

Walleye at DePere

Hello friends,
When I hit send on this column I will be getting in my truck and heading to the state of Mississippi with my brothers Tom and Mike for a week of fun and crappie fishing. First, I have to tell you about a real cool experience that I had while fishing on the Fox River at DePere for walleye out of my canoe.

Friday, March 26th
High 54 low 29
Each spring thousands of walleyes that live in Green Bay swim up the Fox River until they are stopped by the dam at DePere. Each spring a trophy walleye season starts on about March 8th, and runs until well after the spawn is concluded and that season only allows fishermen to keep one walleye and it must be 28-inches.

Nowhere that I fish in a years' time gets as much pressure from fishermen that come from all over the Midwest as this stretch of river and the fishing can be fantastic. Because I like to do things the hard way, I canoe troll by paddling my canoe with three rods in rod holders and for the most part, I use Husky Jerk HJ12 blue chrome, crankbaits.

Most of my experiences take place after dark as this is when the bigger walleye seem to bite and as you are about to read it is a fast paced, go for it, experience.

I launched at the county fairgrounds at DePere and once again was amazed at the literally hundreds of rigs either going in the river or being pulled out. It was 5:30 pm and the fishermen that were finishing for the day had good reports, especially as most said, "once the sun came out."

So, I start paddling down river and put out a left and right planer board and each one was rigged with the blue chrome. On my straight back rod, I would try a half a dozen crankbaits but as usual the blue chrome was the fish catcher.

Almost all of my fish are caught well after dark, and so was I ever surprised when my left board got hit hard and the crazy show of catching a good wall-

eye while sitting on your knees in a canoe began. Everything worked out well and in the end I netted and released a 21-inch walleye.

My plan was to canoe about three miles south and work the body of water that is below the 172 bridge, and when I hit that area it was getting dark and was really crazy as there was probably fifty boats pulling boards and of course I am the only guy in a canoe.

You have two constant situations; one is that the boats behind me, as well in front of me, and also coming at me are all pulling boards and they can be spread out about 40 yards wide. Not running into other boards or getting yours run into is literally a nonstop game, especially since in many situations, you cannot see the boards. Just as important is that literally the longest that you can go without checking your lines is 30 minutes. If you do not you are dragging a long line of leaves on your cranks and literally are not fishing just paddling.

When I check my lines, all forward momentum stops and if I am not on top of my game I mess up the parade of boats that are behind me.

So, I said that I literally sit kind of like a jockey rides a horse and this keeps me balanced and my weight low. Because no one else is in a canoe, everyone talks to me as I pass by them, and for the most part it was a slow bite tonight with mostly small males being the regular reply.

I was paddling upriver on the east shore and decided to cross over to the west shore which was about a 600-yard paddle and I would have to pass two boats in the channel, and both were pulling boards. I just got in front of these guys and had no problem as long as I paddled hard when the blue chrome was hit for the second time tonight and it had been exactly four hours.

Lots of thoughts and actions take place, I am canoeing upriver, it is dark. As soon as I stop paddling my other two rigs are going to get tangled, the guys 50-yards behind me cannot see that I have a fish.

The HJ12 Husky Jerk is very reliable.

It was a circus catching this walleye and taking this picture.

I held the rod up that had the fish on it and slowly reeled in my two other lines and also grabbed the kayak paddle and made some hard pulls every once in a while.

This fight was really about as fun and challenging as it can get. I am wearing chest waders; one mistake and I am in trouble. There is no thrill like catching a good fish in the dark, in current, in traffic. In the end the old girl "she was 23 inches" got to swim another day and perhaps on this very day is laying eggs to provide all of us with walleye for the future.

I fished five more hours without getting out of my canoe or getting another strike. I loaded up my rig and drove home just as night was becoming day and kept thinking Mississippi, big crappie, and lots of laughs with the bro's!

Live large! **Sunset**

(6') and the 400 meter relay team of Scott Hanson, Kevin Golburn, Dave Hanson, and Bill Lindsley (51.34).

The top two performances came from Horstman in the high jump and Johnson in the shot put.

Coach Scott Girard said, "We were pleased with our first outing. We now hope to build from here for the rest of the season."

Steines got a second place in the 1600 meters with a time of 5:01.42 and Schmitz finished second in the high jump with a leap of 5'6.

Third places came from Jacobson in the shot put, Johnson in the discus, Huehn in the 300 Hurdles, Lindsley in the 200 meter dash, and Wackerfuss in the 3200 meter run.

Fourth place finishes went to Huehn in the 100 meter high hurdles, Wackerfuss in the 1600 meter run, Nerbun in the 300 meter hurdles, Horstman in the triple jump, Cloyd in the 800 meter run, and Hanson in the pole vault.

Fifth places were from Nerbun, Hermann, Baze-wicz, Hanson, and Anderson.

OBITUARIES

Kathryn H. Ault

Kathryn Helen Ault, 67, of Cumberland passed away peacefully on April 2, 2021 at her home in the company of her loving family.

She is survived by her husband, Barry Ault of Cumberland; children: Colin Eugene (Kati) DeLong of Minneapolis, MN and their children, Ellen and Ewan, Trevor Martin (Kelly) DeLong of Franklin, TN, and their son, Benson, Kendra Allison Delong

of Cumberland and her children, Maxwell and Matthew, and Jack Henry Pierce Ault of LaCrosse; her brother, Robert (Linda) MacFarlane of Houston, TX; her sister, Peggy (Peter) Leimpeter of Discovery Bay, CA; sister-in-law, Leslie Flynn MacFarlane; nieces, nephews, other relatives and many friends. Kathryn was preceded in death by her brother, John MacFarlane.

A Private Celebration of Kathryn's life will be held at 2:00 PM on Saturday, April 17, 2021 at Skinner Funeral Home in Cumberland. Visitation will be from 4:00 to 7:00 pm Friday, April 16, 2021 and for one hour prior to the service on Saturday at the funeral home. A full obituary will be published next week.

Skinner Funeral Home of Cumberland is serving the family.

ADRC Needs Your Help to Best Serve Older Adults

We're collecting survey input through April 30, 2021

The Aging and Disability Resource Center (ADRC) supports good health and independence as we age in our communities. Our office plays a crucial role in advocating and supporting a community that values, supports, and empowers older adults.

Every three years we formally request community input to develop a new three-year plan for aging programs and services, which we call our "Aging Plan." The plan will outline milestones and goals for our staff and represents the county's intention to ensure older people have the opportunity to realize their full potential and to participate in all areas of community life. Once the plan is approved by our policy-setting Commission on Aging (COA), it is submitted to one of our primary funders, the Greater Wisconsin Agency on Aging Resources. We use it to help guide decisions and provide an annual report on our progress achieving the milestones and goals.

To get started, we are gathering county-wide community input from older adults and those who care about them. Our survey provides anyone an opportunity to share thoughts and ideas about how to make Barron County a great place to age well.

ADRC Director Jennifer Jako says "Barron County is already a great place to age, but we can make it even better. Collecting input for our Aging Plan provides that opportunity. We want to continue to modernize and develop our programs to meet changing needs. Creating an Aging Plan is a community effort, and we hope you will join us in sharing your thoughts and vision for the future."

Community input is crucial to a successful process because we rely on your knowledge and experience to help develop goals. Each new Aging Plan reflects the evolving needs, expectations, and contributions of our increasing aging population.

Barron County has provided Aging services over the past 48 years. In 1973,

Barron County began to develop a countywide Elderly Nutrition Program. In 1979 the program received an Achievement Award from the National Association of Counties for developing central kitchens, a model for improving program efficiency and effectiveness. We've grown and changed to serve community needs over the years. We are a one-stop shop for many in the community to help them remain independent and healthy – helping prevent or delay the need for more expensive long-term care.

Older adults in Barron County can use a wide range of services from the ADRC; most for a suggested donation, including:

- adult day respite
- benefits counseling
- caregiver support
- commodities
- dementia care
- information and assistance
- healthy aging workshops
- home delivered meals
- medical equipment loan closet
- nutrition education
- senior dining

- support groups
- transportation
- volunteer opportunities

Barron County has an estimated population of 45,229; and per the US Census Bureau, nearly 30% of Barron County's population is age 60 or older, higher than the state average as a whole. By 2040, it is projected that nearly 40% of Barron County's population will be age 60 or older. Because we are an aging county, our services are very important to the health of our entire community. To create our best plan, we need your help!

We are excited to hear from you. We want to know what is working, what needs to be changed, what concerns you think about as you age, and your ideas of what should be started. We hope you share your thoughts and ask that you please tell others to share their thoughts too. You can give us input through our survey and our "Ideas Wall".

You can complete the survey three ways:

- online survey at www.ADRCBarronCounty.com,

Church Directory

“What’s Up with All the Blood in the Old Testament?”

by Pastor John Miels

St. Paul Lutheran Church, Cumberland

When you hear Jesus say, “Drink of it, all of you, for this is my blood of the covenant, which is poured out for many for the forgiveness of sins,” this is the theology of the Old Testament behind his words.

In the sacrifices of Israel, blood was more important than any other part of the animal. For example, no part of the animal was ever taken into the Holy Place, much less into the Holy of Holies – with the sole exception of the blood.

Leviticus 17:11: “For the life of the flesh is in the blood, and I have given it for you on the altar to make atonement for your souls, for it is the blood that makes atonement by the life.”

- * The life (literally “the soul”) of the flesh is in the blood. The very life of the animal is located precisely in its blood. To have the blood is to have the life. Life is blood and blood is life. Where there is no blood, there is no life.
- * I have given it to you. Blood is a divine gift from the Lord and Giver of life. This is His institution. He has given it to His Church that they might have the life that is located in the blood. Thus, the blood not only has life; it conveys life for the Lord has given it for that very purpose.
- * On the altar. God gives His Church the life of the blood on the altar. The altar is not just a place of death but of life for here the life-giving blood is placed. Therefore, by the Word of God, the blood of the sacrifice is living and holy and bestows life and holiness.
- * To make atonement for your souls. The blood of the victim (Jesus) atones for sinner. This is its purpose: it removes sin, it removes death, it removes unholiness. Atoning blood is therefore holy blood, life-giving blood. It is given for the removal of sin and the bestowal of holiness.

When you hear Jesus say, “Drink of it, all of you (see opening sentence), we have A real Christ. A real sacrifice. Real blood. Real life. Real forgiveness.

ADRC Survey...

- give us a call at 888-538-3031 to request a survey, or
- complete the survey over the phone

This year we’ve added an opportunity to provide more comments on questions about specific services, called our “Ideas Wall.” You can share your thoughts several ways:

- visit the Ideas Wall link at www.ADRCBarronCounty.com
- review these questions and send us your responses: Aging Well Education

The ADRC offers several group workshops to provide education on aging well and remaining independent. Workshops topics include preventing falls, managing diabetes, and other ongoing health conditions. What topics would interest you? If you haven’t attended one of our workshops, why not, and what would make you want to try a workshop?

Brain Health

Imagine you are diagnosed with Alzheimer’s disease or other dementia in the next five years. What do you think you would need help with and/or know more about to live well in your community?

Caring for Others

Approximately 580,000 unpaid family caregivers in Wisconsin provide assistance or care to a loved one, friend, or neighbor. Caregiving can be rewarding, but it is often difficult and demanding. What is the biggest caregiving issue you’re facing right now?

Transportation

If there came a point where you chose not to drive or were unable to drive, can you describe what your ideal local transportation service would look like? What places would you likely need a ride to?

Eating Well

Before COVID-19, our Senior Nutrition Program offered dine-in meals for anyone 60 years and older at multiple dining sites throughout the county. Our dine-in meals will resume in the future. If you haven’t dined at one of these sites, why not, and what would make you want to try our meal program?

Elder Benefits

Elder benefit specialists (EBS) at our ADRC help answer questions and solve problems related to Social Security, Medicare, health insurance, and other public and private benefits. They serve people ages 60 and over. What benefits would you need support with? How can an EBS best assist you and your loved ones understand these benefits?

We are gathering your input through April 30, 2021. Thank you for helping shape the future for older adults in Barron County!

NOTICE

City of Cumberland Planning Commission meeting, Thursday, April 22, 2021 at 4:00 p.m. at City Hall. (Mayor Skinner, J. Anderson, T. Goldsmith, P. Flottum, T. Schroeder, M. Werner and C. Wiita.)

PUBLIC NOTICES

NOTICE THAT THE ASSESSMENT ROLL IS OPEN FOR EXAMINATION AND OPEN BOOK

NOTICE IS HEREBY GIVEN the assessment roll for the Town of Lakeland is available for inspection beginning April 15, 2021, at the Lakeland Town Hall by appointment and online at www.apraz.com. FURTHER BE ADVISED, due to COVID-19, the Assessor for the Town of Lakeland will be available by phone and a second Open Book will be held on Tuesday, April 27, 2021, 4 p.m. - 6 p.m. Call Assessor Walt Hughes directly at 920-475-4597 to schedule an appointment. Instructional materials shall be provided. Other resources are available online at www.revenue.wi.gov. If you have any questions, please contact Danielle Maxwell-Parker, Clerk at 715-529-2741.

NOTICE OF BOARD OF REVIEW MEETING

Notice is hereby given that the Board of Review for the Town of Lakeland, Barron County, Wisconsin, shall hold its first meeting on Thursday, May 20, 2021, from 11:00 a.m. - 1:00 p.m. at the Lakeland Town Hall located at 791 29-11/16 Ave, Barronett, Wisconsin.

Please be advised of the following requirements to appear before the board of review and procedural requirements if appearing before the board:

1. No person will be allowed to appear before the board of review, to testify to the board by telephone, or to contest the amount of any assessment of real or personal property if the person has refused a reasonable written request by certified mail of the assessor to view the property.

2. After the first meeting of the board of review and before the board’s final adjournment, no person who is scheduled to appear before the board of review may contact or provide information to a member of the board about the person’s objection, except at a session of the board.

3. The board of review may not hear an objection to the amount or valuation of property unless, at least 48 hours before the board’s first scheduled meeting, the objector provides to the board’s clerk written or oral notice of an intent to file an objection, except that upon a showing of good cause and the submission of a written objection, the board shall waive that requirement during the first 2 hours of the board’s first scheduled meeting, and the board may waive that requirement up to the end of the 5th day of the session or up to the end of the final day of the session if the session is less than 5 days with proof of extraordinary circumstances for failure to meet the 48-hour notice requirement and failure to appear before the board of review during the first 2 hours of the first scheduled meeting.

4. Objections to the amount or valuation of property shall first be made in writing and filed with the clerk of the board of review within the first 2 hours of the board’s first scheduled meeting, except that, upon evidence of extraordinary circumstances, the board may waive that requirement up to the end of the 5th day of the session or up to the end of the final day of the session if the session is less than 5 days. The board may require objections to the amount or valuation of property to be submitted on forms approved by the Department of Revenue, and the board shall require that any forms include stated valuations of the property in question. Persons who own land and improvements to that land may object to the aggregate valuation of that land and improvements to that land, but no person who owns land and improvements to that land may object only to the valuation of that land or only to the valuation of improvements to that land. No person may be allowed in any action or proceedings to question the amount or valuation of property unless the written objection has been filed and that person in good faith presented evidence to the board in support of the objections and made full disclosure before the board, under oath, of all of that person’s property liable to assessment in the district and the value of that property. The requirement that objections be in writing may be waived by express action of the board. 5. When appearing before the board of review, the objecting person shall specify in writing the person’s estimate of the value of the land and of the improvements that are the subject of the person’s objection and specify the information that the person used to arrive at that estimate.

6. No person may appear before the board of review, testify to the board by telephone, or object to a valuation if that valuation was made by the assessor or the objector using the income method of valuation, unless the person supplies the assessor with all the information about income and expenses, as specified in the assessor’s manual under s. 73.03 (2a), Wis. stats., that the assessor requests. The Town of Lakeland has an ordinance for the confidentiality of information about income and expenses that is provided to the assessor under this paragraph that provides exceptions for persons using information in the discharge of duties imposed by law or the duties of their officer or by order of a court.* The information that is provided under this paragraph, unless a court determined that it is inaccurate, is not subject to the right of inspection and copying under s. 19.35 (1), Wis. stats.

7. The board shall hear upon oath, by telephone, all ill or disabled persons who present to the board a letter from a physician, surgeon, or osteopath that confirms their illness or disability. No other persons may testify by telephone unless the Board, in its discretion, has determined to grant a property owner’s or their representative’s request to testify under oath by telephone or written statement.

8. No person may appear before the board of review, testify to the board by telephone, or contest the amount of any assessment unless, at least 48 hours before the first meeting of the board, or at least 48 hours before the objection is heard if the objection is allowed under s.70.47 (3) (a), Wis. stats., that person provides to the clerk of the board of review notice as to whether the person will ask for the removal of a member of the board of review and, if so, which member, and provides a reasonable estimate of the length of time the hearing will take.

Notice is hereby given this 7th day of April, 2021.

Danielle E. Maxwell-Parker, Town Clerk

NOTICE OF PROCLAMATION TOWN OF LAKE LAND

NOTICE IS HEREBY GIVEN that the Board of Supervisors for the Town of Lakeland adopted a proclamation, Resolution 2021-03 on March 9, 2021, which in part reads: “NOW, THEREFORE, we, the Board of Supervisors of the Town of Lakeland, do hereby proclaim Tuesday, April 20, 2021, as:

Public Service Recognition Day for the Newly Retired in the Town of Lakeland, and urge all citizens and employees to join the Board of Supervisors in congratulating Ken Rohl on an outstanding career with the Town of Lakeland and wishing him many continued years of happiness and good health.”

In addition to the retirement of Planning Commission President Ken Rohl, the Town Board will further be recognizing two other retirements this April, Supervisor John Rieper (31 years) and Town Treasurer Joan Stetler (8 years). The public is invited to express appreciation to these three newly retired public servants as they are recognized by said proclamations and during the Annual Meeting on Tuesday, April 20, 2021, at 6:00 p.m.

Gov. Evers Announces FEMA COVID-19 Mass Vaccination Clinic Site to Open in Eau Claire on April 8th

Mass vaccination clinic to serve thousands in the Chippewa Valley area

Gov. Tony Evers announced today that a federally supported mass vaccination clinic will open on April 8 at the University of Wisconsin-Eau Claire's Zorn Arena for COVID-19 vaccinations. In coordination with state and local partners, the U.S. Department of Homeland Security's Federal Emergency Management Agency (FEMA) Region 5 will coordinate staff and support services to run the center. Wisconsin has committed to providing at least 3,500 weekly vaccine doses from the state's allocation for the site, and up to 7,000 first doses weekly based on supply. This is the second mass vaccination clinic site to open in the state and will have the capacity to vaccinate 1,200 people per day.

"As Wisconsin continues to be a regional and national leader in using vaccine available, we're grateful for FEMA's support to help build our vaccination efforts on a larger scale to get more shots in arms quickly as we have vaccine available," said Gov. Evers. "I appreciate the hard work of all of our partners coming together to get this second, high volume vaccination site up and running."

Zorn Arena has been providing weekly antigen testing and vaccination clinics, and will transition vaccination operations to the federal government. "FEMA and our federal partners are committed to expanding vaccine access to communities across the state of Wisconsin," said Kevin M. Sligh, acting regional administrator, FEMA Region 5. "This new site in Eau Claire will provide safe and effective vaccines to northwest Wisconsin and be a

critical resource in the fight to end this pandemic."

UW-Eau Claire's College of Nursing and Health Sciences faculty, staff, and students provided support for the weekly clinics and will continue to support the Eau Claire City-County Health Department with the mass vaccination clinic. "We are proud to be able to help the community in the ongoing fight against COVID-19, and thanks to our partners at the local, state and federal level, this vaccination site will help western Wisconsin move forward," said UW-Eau Claire Chancellor James Schmidt.

The Eau Claire City-County Health Department has worked closely with UW-Eau Claire to coordinate community testing and mass vaccination efforts. "Getting a vaccine is a critical step toward ending the COVID-19 pandemic," said Lieske Giese, Health Department Director. "As vaccine supply continues to increase, we hope people will make an appointment and get vaccinated as soon as they are eligible."

Zorn Arena offers easy access for residents in the city and for visitors to Eau Claire via U.S. Highways 12 and 53, and Interstate 94. Parking will be available on campus.

The mass vaccination clinic is a joint effort between the Eau Claire City-County Health Department, UW-Eau Claire, Wisconsin Department of Health Services, the State of Wisconsin, and FEMA Region 5.

For up-to-date information about Wisconsin's COVID-19 response, visit the DHS COVID-19 webpage. We encourage you to follow @DHSWI on Facebook, Twitter, or dhs.wi on Instagram for more information on COVID-19.

Job Description: Full-time Interventionist position at Cumberland Middle School, effective at the start of the 2021-2022 school year. The successful candidate will provide explicit, systematic instruction to students in grades 5-8 to improve their academic achievement. The individual will complete student progress monitoring and maintain records by following the district Response to Intervention (RtI) protocol.

The ideal candidate is a dynamic, innovative, middle school teacher with a strong background in RtI, Positive Behavioral Interventions and Supports (PBIS), Ready Math, the Wonders reading language arts curriculum, and utilizing Fastbridge Learning as a universal math and reading screener and progress monitoring tool.

Candidates must be passionate about supporting student academic achievement. This teacher will work with individual students and small groups to close achievement gaps and help students become proficient in English/Language Arts and Math.

The district's RtI process for providing systematic interventions to improve academic achievement for students will be followed. Interventions will be primarily focused in the areas of reading and mathematics.

Qualifications: WI DPI Certification/Licensure at 1088 Pre K to 8 or 1777-Regular Education. Additional certification(s) desired: Reading Specialist 1317 and Reading Teacher 1316.

How to Apply: If interested in this position, applications are taken through the WECAN website: https://wecan.education.wisc.edu or mail or email resume, letter of interest, three letters of recommendation and copies of transcripts from all attended universities to:

Polk County Sheriff's Deputy recieves National award

Polk County Sheriff's Deputy Andrew Vitalis

Polk County Sheriff's Deputy Andrew Vitalis was selected to receive the prestigious Deputy Sheriff of the Year Award, from the National Sheriffs' Association. (NSA). Deputy Vitalis will receive this award in June at the NSA conference in Phoenix Arizona.

Deputy Vitalis is recognized for this award from his work in solving the 7 year old cold case hit and run crash in the Round Lake Community that killed Richard Cobenais and Benjamin Juarez. The NSA gives two Deputy Sheriff of the Year awards annually, one is for Merit, the other for Valor. Vitalis will receive the Merit award which is for innovation in Law Enforcement that benefits their community. Vitalis had the idea to produce a video highlighting this cold case and work in partnership with the St. Croix Tribal Police. The video ultimately led to a tip that brought closure to this case and our community.

Woman found dead of multiple gunshot wounds in Sawyer County

On Friday, April 2, 2021 at 12:26 am, deputies from the Sawyer County Sheriff's Office responded to a residence on Hungary Lake Lane in the Town of Sand Lake for a call of a deceased female. Upon arrival, deputies discovered the body of a middle-aged, white female deceased in the residence from multiple gunshot wounds.

The Sawyer County Coroner's Office has positively identified the female as Cary Lynne Elkin, 42, of Stone Lake, WI.

The Sawyer County Sheriff's Office assisted by the Wisconsin Department of Justice are following up on leads in this case but do not have suspect information to release at this time.

Anyone with information regarding this case is encouraged to call the Sawyer County Sheriff's Office at 715-634-4858 or 715-634-5213. You may report information anonymously on the Sawyer County Tip Line by going to the Sawyer County Sheriff website.

Hoppy Easter!

Thanks to area businesses and the Chamber of Commerce, the Easter Bunny was able to come to Cumberland and hide over 100 'Baga Bunnies for the kids to find on Saturday, April 3rd. Above: Lucky bunny hunters turn their 'bagas in for a basket of goodies at the Chamber office. The kids were egg-static!
