**Northwood Tech offers free adult basic education classes**

Adult basic education classes are available through Northwood Technical College at the four main campuses and several outreach sites. Classes are intended to help adults prepare for the GED/HSED exams, prepare for college entrance, receive course and program support, maintain employment, enter the workforce with confidence, and/or achieve personal goals.

Brush up on basic skills such as reading, writing, grammar, science, social studies, and math as well as study skills and test-taking strategies. Our faculty and staff will work with you in an open lab or structured class setting. Students can enroll any time during the semester.

Classes are flexible, free, and available to Wisconsin residents 18½ years of age or older.

For more information or to schedule an appointment, contact:

□ Jennifer Olson, Academic Support Technician for the Ashland Campus directly at 715.319.7268 or [jennifer.olson@northwoodtech.edu](mailto:jennifer.olson@northwoodtech.edu)

□ Gideon Mayhak, Academic Support Technician for the Rice Lake Campus directly at 715.788.7049 or email [gideon.mayhak@northwoodtech.edu](mailto:gideon.mayhak@northwoodtech.edu)

□ Heather Hinz, Academic Support Technician for the New Richmond Campus directly at 715.752.8141 or email [heather.hinz@northwoodtech.edu](mailto:heather.hinz@northwoodtech.edu)

□ Stephanie Pearson, Academic Support Technician for the Superior Campus directly at 715.319.7321 or [stephanie.pearson@northwoodtech.edu](mailto:stephanie.pearson@northwoodtech.edu)

Northwood Tech is grateful for all its community partnerships. Your support of the Northwood Tech Foundation is essential to student success. For information on how to contribute, visit [www.northwoodtech.edu/donate](http://www.northwoodtech.edu/donate).

In case we haven't told you lately  
**THANK YOU!!**

**NOTICE**

**OF PUBLIC HEARING STATE OF WISCONSIN SS COUNTY OF BARRON TO WHOM IT MAY CONCERN:**

PUBLIC NOTICE is hereby given to all persons in the County of Barron, Wisconsin, that the Barron County Zoning Committee will consider at public hearing on Wednesday, June 7, 2023 at 1:30 pm in Room 2106 of the Barron County Government Center, 335 E. Monroe Ave., Barron, Wisconsin, the following request relative to rezoning amendments of the official zoning maps:

Request to rezone the S100' of Lot 1 CSM 29/65 being a part of NW-SE, consisting of 0.49 acres, located in Section 8, T35N, R13W, Town of Cumberland, from the Residential-1 to the Agricultural-2 district.

Property owned by Raymond Wiik.

Applicant: Travis & Rebecca Erickson.

The Zoning Committee reserves the right to view the property and convene in executive session prior to rendering a decision.

All Persons interested are invited to attend said hearing.

Dated at Barron, Wisconsin, this 24th day of May, 2023.

**STAPLES LAKE PROTECTION DISTRICT COMMUNITY ANNUAL MEETING/PICNIC**  
**JUNE 24, 2023 • 11 AM-12 PM**  
**County Line Tavern**  
**3 - 220th Avenue**  
**Comstock, WI 54826**

The Staples Lake Protection & Rehabilitation District will hold their annual meeting on June 24, 2023. The district continues to implement our Lake Management Plan that identifies strategies and resources that address the water quality challenges facing our lake. As a landowner within the lake district, your input on priorities and potential management options is very important.

Annual summer picnic to follow meeting.

A notice will be mailed to all district members as well.

**DNR Experts Warn Of A Bad Spongy Moth Summer; Pest Outbreak May Be Worst In More Than A Decade**

The Wisconsin Department of Natural Resources (DNR) warns the public that the next two months could bring the worst spongy moth caterpillar outbreak in more than a decade.

Invasive spongy moth caterpillars, formerly known as gypsy moth, strip trees of their leaves, potentially killing high-value trees. They prefer to feed on oak, birch, crabapple, aspen and willow leaves but will also feed on many other tree and shrub species.

Southern Wisconsin and parts of the north are already in a high-population outbreak that is predicted to continue and spread.

"Populations have remained high due to a low incidence of caterpillar-killing diseases last summer," said Bill McNee, DNR Forest Health Specialist in Oshkosh. "In addition, weather conditions are favorable for the caterpillars and unfavorable for Entomophaga maimaiga, a fungus that kills spongy moth caterpillars."

Property owners are encouraged to examine their trees and take action. Specifically:

Visit the Wisconsin Spongy Moth Information Portal for information about managing spongy moth. Management options for the caterpillars include using burlap collection bands, physically destroying caterpillars and applying insecticide to protect trees and reduce nuisance caterpillar numbers.

Learn how to use burlap collection bands. These are a non-pesticide option to help reduce populations when checked daily while large caterpillars are present.

Insecticide treatments can be a suitable option for high-value host trees but are usually not practical for woodlots. Insecticide treatments are most effective when the caterpillars are small.

Water yard trees weekly

during dry periods to help reduce tree stress and aid a tree's recovery from heavy leaf loss by the caterpillars.

Wait to cut down any trees that have lost their leaves. Healthy hardwood trees usually produce a new set of leaves a few weeks later.

Forest management may need to be postponed in forest stands with expansive leaf loss. Trees will be stressed from heavy leaf loss and often unable to handle the additional stress from forest thinning.

Those who find spongy moth caterpillars should avoid touching them as the hairs often cause a skin rash, welt or other irritation. Rubbing alcohol can help to remove the hairs and chemical irritants from skin that is exposed to the hairs.

Plan for insecticide treatments ahead of time to help secure an applicator and avoid a last-minute rush when pesticide application businesses may already be very busy. Resources for finding a qualified pesticide applicator include the Wisconsin Arborist Association, International Society of Arboriculture and a local phone book.

Stressed trees are already at an elevated risk of dying and will often die if they lose a lot of leaves in 2023. Low-vigor oak trees are likely to be infested by the native beetle, twolined chestnut borer, contributing to tree decline and death. Consult an arborist or forester for additional management recommendations.

Spongy moth populations may have a temporary, large increase in an area about every 10 years. Many areas currently experiencing a second or third year of the spongy moth outbreak will likely see a population decline or collapse due to diseases or starvation. Predicting where and when the decline will happen is difficult, and heavy leaf loss often occurs before the caterpillar population collapses.

**CUMBERLAND SCHOOL DISTRICT**  
**Employment Opportunity**  
**Special Education Teacher Posting**

**Job Title:** Full-Time High School Special Education Teacher  
**Job Description:** Full-time Special Education teaching position at the Cumberland High School, effective at the start of the 2023 - 2024 school year. Applicants will have excellent communication, leadership, and organizational skills. Experience with special education paperwork and procedures, including functional behavior assessments and behavior intervention plans, is desired. Applicants must value the importance of maintaining student rapport and have experience with co-teaching and differentiation. This position entails working with students in grades 9-12. The applicant is responsible for case management duties, communicating with parents and staff, writing and implementing IEPs, as well as completing other duties as assigned.  
**Qualifications:** A Wisconsin Department of Public Instruction Special Education License to teach students in grades 9-12.  
**How to Apply:** If interested in this position, applications are submitted through the WECAN website: <https://wecan.education.wisc.edu>. Applicants may also mail or email a resume, letter of interest, three letters of recommendation, and copies of transcripts from all attended universities to:
